Customer Interaction Center

The ConvaTec Customer Interaction Center (CIC) has Product Specialists, including WOC (ET) nurses available six days a week to answer ConvaTec product-related questions and provide reimbursement information (HCPCS codes and utilization limits) for ConvaTec products to patients and professionals.

To contact the CIC department, call toll free [1-800-422-8811](tel:1-800-422-8811), M-Th 8:30am-8:00pm ET, Fri. 8:30am-6:00pm ET or Sat. 10:00am-2:00pm ET or via the ConvaTec website at: www.convatec.com

Disclaimer

The reimbursement information provided by ConvaTec is intended to provide general information relevant to coding and reimbursement of ConvaTec's products only. Coverage and payment policies for the same insurer can vary from one region to another and may change from time to time because of ongoing changes in government and insurance industry rules and regulations. Therefore, please confirm HCPCS codes with your local DME-MAC, private insurer, or Medicaid agency before processing claims. ConvaTec does not guarantee coverage or payment of its products listed herein.

Skin Care Products

Aloe Vesta® Body Wash & Shampoo

Gentle and soothing to fragile, dry skin. It is specially formulated to leave skin and hair smelling clean and fresh.

It not only cleanses effectively, but it also moisturizes the skin. It may be used for routine tub and shower bathing or for no-rinse bathing and shampooing.

Product Code	Size	Qty.
324604	4 oz	48 bottles per case
324609	8 oz	48 bottles per case
324611	4 ltr	4 bottles per case

Aloe Vesta® Body Wash & Shampoo

One-Touch Wall Mount Dispenser

This product features the original Aloe Vesta® Body Wash & Shampoo product in an easy, one-hand, one-touch dispensing unit. The dispenser unit is easy to install, clean and refill.

Product Code	Size	Qty.
324612	1 ltr bottle	8 per case
122101	1 ltr wall mounted dispenser	4 per case

Aloe Vesta® Cleansing Foam

Aloe Vesta® Cleansing Foam is one product for total body cleansing that is extra-gentle and ready to use. It is a no-rinse cleanser for all-over body, hair and perineum. Its no-rinse formula is pH balanced and enriched with aloe and emollients designed to leave skin feeling clean and fresh.

Product Code	Size	Qty.
325204	4 oz	24 bottles per case
325208	8 oz	12 bottles per case

Aloe Vesta® Bathing Cloths

Aloe Vesta® Bathing Cloths are a moisturizing cleansing system for no-rinse bed bathing. Each bag contains eight pre-moistened cloths for cleansing body areas. Aloe Vesta® Bathing Cloths contain natural botanical oils, which moisturize and condition the skin, making it feel smooth and soft without leaving a sticky residue.

Product Code	Size	Qty.
325521	8 towelettes per pack	24 packs per case

Sensi-Care® Septi-Soft® Concentrate

Sensi-Care® Septi-Soft® Concentrate is a bathing solution enriched with natural coconut oil to soften, condition and moisturize the skin. It is designed for no-rinse bathing and shampooing and contains a natural soap to cleanse the skin and hair and reduce body odors. Sensi-Care® Septi-Soft® Concentrate leaves skin and hair clean and fresh.

Product Code	Size	Qty.
325304	4 oz	48 bottles per case
325309	8 oz	48 bottles per case

Aloe Vesta® Cleansing Foam

Aloe Vesta® Cleansing Foam is one product for total body cleansing that is extra-gentle and ready to use. It is a no-rinse cleanser for all-over body, hair and perineum. Its no-rinse formula is pH balanced and enriched with aloe and emollients designed to leave skin feeling clean and fresh.

Product Code	Size	Qty.
325204	4 oz	24 bottles per case
325208	8 oz	12 bottles per case

Aloe Vesta® Bathing Cloths

Aloe Vesta® Bathing Cloths are a moisturizing cleansing system for no-rinse bed bathing. Each bag contains eight pre-moistened cloths for cleansing body areas. Aloe Vesta® Bathing Cloths contain natural botanical oils, which moisturize and condition the skin, making it feel smooth and soft without leaving a sticky residue.

Product Code	Size	Qty.
325521	8 towelettes per pack	24 packs per case

Aloe Vesta® Perineal/Skin Cleanser

Aloe Vesta® Perineal/Skin Cleanser is designed for incontinence cleansing. It contains a strong surfactant system to clean and emollients to moisturize. This liquid skin cleanser deodorizes with a fresh lemon fragrance. Dispensed as a liquid spray, it is more convenient than soap and water cleansing from a basin.

Product Code	Size	Qty.
324704	4 oz	48 bottles per case
324709	8 oz	48 bottles per case

Sensi-Care® Perineal/Skin Cleanser

Sensi-Care® Perineal/Skin Cleanser is formulated for patients sensitive to irritating fragrances, preservatives, and harsh cleansers. Its extra-gentle, no-rinse cleanser is designed for incontinence cleansing. Contains special conditioners and emollients to soothe and moisturize fragile, sensitive skin.

Product Code	Size	Qty.
324504	4 oz	48 bottles per case
324509	8 oz	48 bottles per case

Skin Protectants/Moisturizers

Aloe Vesta® Skin Conditioner

Aloe Vesta® Skin Conditioner has been designed for routine moisturizing and skin protection. It was designed with the needs of people with sensitive skin in mind. It leaves the skin feeling smooth and soft and helps to relieve dry skin. It helps prevent and temporarily protect chafed, chapped, and cracked skin.

Product Code	Size	Qty.
324802 (NDC43553-3248-02)	2 oz	98 bottles per case
324804 (NDC43553-3248-04)	4 oz	48 bottles per case
324809 (NDC43553-3248-09)	8 oz	48 bottles per case

Sensi-Care® Moisturizing Body Cream

Sensi-Care® Moisturizing Body Cream is specially formulated to relieve chronic dry skin. This moisturizing body cream contains emollients that smooth and soften the skin, and humectants that attract and retain moisture. Concentrated for highly effective dry skin therapy. It is good for hands, heels, elbows and knees.

Product Code	Size	Qty.
324403 (NDC43553-3244-03)	3 oz	24 tubes per case

Skin Protectants/Moisture Barriers

Aloe Vesta® Protective Barrier Spray

Aloe Vesta® Protective Barrier Spray is an occlusive barrier, which repels moisture and acts as a barrier to irritants in feces and urine. The product is petrolatum-based, thus offering moisturization of the skin as well. The clear product is designed to be applied by spraying it on the skin without the need to rub fragile skin. This reduces the possibility for further damage to the skin through physical contact.

Product Code	Size	Qty.
413401 (NDC43553-4134-01)	2.1 oz	24 spray bottles per case

Aloe Vesta® Protective Ointment

Aloe Vesta® Protective Ointment has been designed to act as a barrier/ointment for routine use in incontinence care. It performs two key functions: moisturizing and protection of the skin. The petrolatum-based ointment is easy to apply. It provides a clear and effective barrier that seals out moisture, contains protein-rich emollients to moisturize and is non-sensitizing and fragrance free.

Product Code	Size	Qty.
324913 (NDC43553-3249-13)	2 oz	24 tubes per case
324908 (NDC43553-3249-08)	8 oz	12 tubes per case

Sensi-Care® Protective Barrier

Sensi-Care® Protective Barrier provides extra protection for high-risk skin or weepy and denuded skin. This zinc oxide-based barrier guards fragile and sensitive skin to help manage and prevent irritation due to urine and fecal incontinence.

Product Code	Size	Qty.
325614 (NDC43553-3256-14)	4 oz	24 tubes per case

Aloe Vesta® Antifungal Ointment

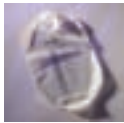

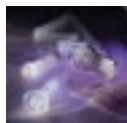

Aloe Vesta® Antifungal Ointment cures most superficial fungal infections with 2% miconazole nitrate in a petrolatum base. The petrolatum, which forms a clear occlusive barrier, repels moisture and softens affected skin while it relieves itching, scaling, cracking, and discomfort.

Product Code	Size	Qty.
325102 (NDC43553-3251-02)	2 oz	12 tubes per case
325105 (NDC43553-3251-05)	5 oz	12 tubes per case

Fecal Management Products

Flexi-Seal® Fecal Management System (FMS) Kit

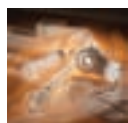

Kit contains: 1 soft silicone catheter, 1 syringe, 3 collection bags

Flexi-Seal® FMS is a temporary containment device, indicated for the fecal management of patients with little or no bowel control and liquid or semi-liquid stool. It was designed to safely and effectively divert fecal matter, protect patients' wounds from fecal contamination and reduce both the risk of skin breakdown and spread of infection. This easy-to-use system provides an excellent alternative to traditional methods of managing fecal incontinence such as pads, diapers, fecal pouches, and rectal tubes.

Flexi-Seal® FMS kit consists of a silicone catheter with soft and flexible silicone retention balloon, specially labeled syringe for 45ml, and 3 collection bags.

At one end, the soft silicone catheter has a retention balloon. The device is inserted into the rectum. At the opposite end, the catheter has a connector for attaching the collection bag.

Product Code	Qty.
411100	1 kit

Flexi-Seal® Fecal Management System (FMS) Advanced Odor Control

Kit contains: 1 soft silicone catheter with nylon inner odor barrier, 1 syringe, 3 collection bags with charcoal filter

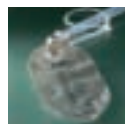

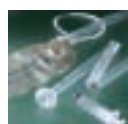

The Flexi-Seal® FMS Advanced Odor Control is specifically designed to help manage odor* associated with fecal incontinence.

The Flexi-Seal® FMS Advanced Odor Control manages odor in two distinct ways: first, the nylon inner odor barrier HOLDS the odor molecules within the silicone catheter; second, the device contains a charcoal filter in the collection bag that deodorizes gas as it is released.

In addition to promoting skin integrity and reducing the spread of infection, Flexi-Seal® FMS Advanced Odor Control is designed to provide a more pleasant environment for both patients and their caregivers.

* Eliminates perceptible naphthalenic (indole) and sulfide odors radiating from the catheter tube.

Product Code	Qty.
411104	1 kit

Flexi-Seal® SIGNAL™ Fecal Management System (FMS) Kit

Kit contains: 1 soft silicone catheter with SIGNAL indicator, 1 syringe, 3 collection bags with charcoal filter, 5 labels for clinical notes

Flexi-Seal® SIGNAL™ FMS has a unique fill indicator port that “signals” when the retention balloon is filled to an appropriate volume up to a max of 45 mL. The indicator port has a small bubble that rises as the amount of fluid instilled into the balloon approaches 45 mL, providing additional guidance for the nurse along with the specially marked 45 mL syringe.* This exciting new product not only brings confidence to the nurses that they are filling the balloon appropriately up to 45 mL, but also improves ease of use.

Product Code	Qty.
418000	1 kit

*Note that all patients will not require inflation of the balloon to the maximum of 45 mL. Fill volume for each patient is based on clinician judgment and not to exceed 45 mL.

Fecal Management Products

Flexi-Seal® Fecal Management System (FMS) Collection Bag

411101	10 per box
--------	------------

Flexi-Seal® Fecal Management System (FMS) Collection Bag with Charcoal Filter

411102	10 per box
--------	------------

Flexi-Seal® Fecal Collector

Flexi-Seal® Fecal Collector is a fecal collector pouch with an odor filter and a skin-friendly hydrocolloid adhesive. Each box contains 10 individually wrapped fecal collectors with tail closures.

Product Code	Qty.	HCPCS
650078	10 per box	A4330

Wound Care Products

Wound Cleansing

SAF-Clens® AF Dermal Wound Cleanser

SAF-Clens® AF dermal wound cleanser is an advanced surfactant-containing formula that washes away debris that saline may leave behind. Its no-rinse formula saves time and its nozzle adjusts from stream to spray for varying wound cleansing needs. It is designed to deliver safe PSI.

Product Code	Size	Qty.
159712	12 oz	6 bottles per case

Shur-Clens® Wound Cleanser

Shur-Clens® Wound Cleanser can be used on acute non-surgical traumatic wounds. Its no-rinse formulation is designed to easily clean wounds without irritation or sensitization while minimizing further tissue damage. It is also available in a single-unit dose size for convenience.

Product Code	Size	Qty.
121222	20 ml (.68 oz)	100 bottles per case
121253	100 ml (3.4 oz)	24 bottles per case

OPTIPORE® Sponge

Optipore® Sponge is a sterile, soft, highly porous, polyurethane sponge that is designed for low-friction cleansing. Its butterfly shape makes it easy to handle and use.

Product Code	Size	Qty.
125199	1 each	25 per case

Wound Hydration

DuoDERM® Hydroactive® Gel

DuoDERM® Hydroactive® Gel is a sterile, clear, single-use, hydrocolloid gel without preservatives. It can be used as a filler in dry cavity wounds because it provides a moist wound healing environment and aids in the removal of nonviable tissue from the wound (autolytic debridement). It can also be used on diabetic ulcers and skin conditions resulting from radiation dermatitis.

Product Code	Size	Qty.	HCPCS
187990	15 gm	10 tubes per case	A6248
187987	30 gm	3 tubes per case	A6248

SAF-Gel® Hydrating Dermal Wound Dressing Gel With Alginate

SAF-Gel® hydrating dermal wound dressing has an alginate-containing formula that remains cohesive as it absorbs. It is indicated for use on chronic and acute wounds, such as dry wounds, pressure ulcers (Stage II-IV), and stasis ulcers. Its multiple single patient-use package helps to eliminate waste.

Product Code	Size	Qty.	HCPCS
145730	3 oz tube	12 tubes* per case	A6248

* Sold in case quantities only.

Moisture Retentive Dressings

DuoDERM Signal® Dressing

DuoDERM Signal® Dressing combines the proven benefits of the moist wound healing environment of DuoDERM® CGF® Dressing with the latest technology in dressing design to enhance patient comfort. Its easy-to-use visual indicator helps simplify dressing changes by signaling when it's time to change the dressing; its tapered border edges and smooth, low-friction backing help to minimize the potential for dressing catches and shears. Its thin profile and translucent design make it a flexible and conformable dressing that enhances placement and initial monitoring of the wound.

Product Code	Size	Qty.	HCPCS
Shapes:			
410510	4.5" x 7.5" (Oval)	5 dressings per box	A6235

DuoDERM® Extra Thin Dressing

DuoDERM® Extra Thin Dressing is a thin, flexible, conformable, and moisture-resistant wound dressing that covers and protects susceptible areas anywhere on the body to gently protect newly formed tissue or skin at risk of breakdown. Its translucent backing is designed to prevent needless dressing changes that can cause discomfort and disturb healing. Recommended for use on skin tears, superficial wounds, dry-to-lightly exuding dermal ulcers, and post-op wounds.

Antimicrobial Dressings

AQUACEL® Ag SURGICAL Hydrofiber® Dressing

AQUACEL® SURGICAL cover dressings are an easy-to-use, single product solution to the post-operative management of surgical incisions. They are designed to enhance clinical outcomes and facilitate patient mobility. These dressings combine skin-friendly hydrocolloid technology for comfort during body movement, and proprietary Hydrofiber® Technology with ionic silver to help prevent wound infections and manage exudate (or drainage). Cover layer of polyurethane film provides a viral, waterproof and bacterial barrier (when intact and with no leakage), for a high-performance dressing.

Product Code	Size	Qty.	HCPCS
412009	3.5" x 4"	10 dressings per box	
412010	3.5" x 6"	10 dressings per box	
412011	3.5" x 10"	10 dressings per box	
412012	3.5" x 14"	10 dressings per box	

AQUACEL® Ag Hydrofiber® Dressing with Ionic Silver

AQUACEL® Ag dressing is the only antimicrobial dressing with all the unique gelling benefits of Hydrofiber® technology. This dressing provides many benefits IN ADDITION to those listed for AQUACEL® dressing. Silver is only bactericidal in its ionic state.^{9,10} The Hydrofiber® properties of AQUACEL® Ag dressing thoroughly conforms over the wound surface creating an intimate contact that allows for an optimal exposure to bactericidal silver ions.¹¹ Ionic silver starts killing a broad spectrum of pathogens within 30 minutes of exposure to the dressing as demonstrated by *in vitro* testing, including MRSA and VRE.¹² *In vitro* studies with AQUACEL® Ag dressing have demonstrated microbicidal activity against a wide range of pathogens up to a period of 14 days.¹³ AQUACEL® Ag dressing maintained antimicrobial activity even after reinoculation of microorganisms in laboratory studies.¹³ Gauze can release bacteria into the air during dressing removal.¹⁴ The moist environment provided through Hydrofiber® technology reduces pain during dressing changes providing a non-traumatic removal of the dressing without damaging newly formed tissue.³⁻⁶ In addition, AQUACEL® Ag dressing resulted in a 28% reduction in the cost per partial thickness burn healed compared to silver sulfadiazine⁵ in a protocol of care.

Product Code	Size	Qty.	HCPCS
403706	2" x 2"	10 dressings per box	A6196
403765	4" x 4.7"	10 dressings per box	A6197

403711	8" x 12"	5 dressings per box	A6198
403771	3/4" x 18" (ribbon with strengthening fiber)	5 dressings per box	A6199

Exudate Management

AQUACEL® Hydrofiber® Wound Dressing

AQUACEL® dressing is a soft, nonwoven pad or ribbon dressing that features Hydrofiber® technology, a unique gelling technology exclusive to ConvaTec. It absorbs and retains exudate and harmful components, such as bacteria contained within exudate, directly into its fibers.¹ In an animal study, AQUACEL® dressing in its gelled state, conformed to the wound surface, thereby reducing dead space.² The gelling action of Hydrofiber® technology in AQUACEL® (and AQUACEL® Ag) reduces wound pain while the dressing is *in situ* and helps to reduce the pain and trauma upon dressing removal.³⁻⁶ In addition, AQUACEL® dressing in its gelled state does not damage tender, granulating wound tissue or healthy tissue surrounding exuding wounds during dressing changes.⁷ AQUACEL® dressing absorbs wound fluid and creates a soft gel, which maintains a moist wound environment that aids autolytic debridement and supports the body's healing process⁸ in a protocol of care.

Product Code	Size	Qty.	HCPCS
177901	2" x 2"	10 dressings per box	A6196
177902	4" x 4"	10 dressings per box	A6196

403770	3/4" x 18" (ribbon with strengthening fiber)	5 dressings per box	A6199

KALTOSTAT® Alginate Wound Dressing

KALTOSTAT® dressing is a soft, sterile dressing made of calcium-sodium alginate fiber that converts to a firm gel/fiber mat on contact with fluid. It is designed to absorb exudate and to help control minor bleeding. It may be appropriately used for moderately to heavily exuding wounds including Stage II–IV pressure ulcers, venous ulcers, arterial and diabetic ulcers, donor sites, superficial burn wounds, lacerations and abrasions, traumatic wounds, and after-surgical wound debridement.

Product Code	Size	Qty.	HCPCS

168117	2 gm (rope)	5 ropes per box	A6199
168132	2 gm (rope)	5 ropes per box, 10 boxes per case	A6199

KALTOSTAT® Alginate Fortex™ Dressing

KALTOSTAT® is a soft, sterile dressing made of calcium-sodium alginate fiber that converts to a firm gel/fiber mat on contact with fluid. It may be appropriately used for moderately to heavily exuding wounds including Stage II–IV pressure ulcers, venous ulcers, arterial and diabetic ulcers, donor sites, superficial burn wounds, lacerations and abrasions, traumatic wounds, and after-surgery wound debridement. Available in a flat dressing.

Product Code	Size	Qty.	HCPCS
168356	4" x 4"	10 dressings per box	A6196

Versiva® XC® Gelling Foam Dressing

Versiva® XC® Gelling Foam Dressing is a unique gelling foam dressing that combines the simplicity of foam with the benefits of Hydrofiber® Technology. It is designed to protect periwound skin and reduce the risk of maceration and also offers more for wound management than just a moist wound environment. As a primary dressing, use Versiva® XC® Gelling Foam Dressing in your current protocol of care. Recommended as secondary dressing over AQUACEL® dressing for deep wounds or over AQUACEL® Ag dressing for deep wounds at risk of infection.

Sizes listed below represent overall dressing dimensions.

CombiDERM® ACD® Dressing (adhesive cover dressing)

CombiDERM® ACD® Dressing is a thin-profile cover dressing that wicks and keeps excess moisture away from the wound, locking in exudate while maintaining a moist wound healing environment. It can be used over moderately to heavily exuding wounds including pressure ulcers, leg ulcers, diabetic ulcers, abrasions, lacerations, biopsies, and open and closed surgical wounds.

Product Code	Size	Qty.	HCPCS
Squares/Rectangles:			
651031	4" x 4" (Inner pad 2" x 2")	10 dressings per box	A6237
187725	5.25" x 5.25" (Inner pad 2.95" x 2.95")	10 dressings per box	A6237
651029	6" x 10" (Inner pad 7.2" x 3.3")	5 dressings per box	A6238
401848	8" x 8" (Inner pad 3.3" x 3.3")	5 dressings per box	A6238
Triangles:			
651027	6" x 7" (Inner pad 4.3" x 3.3")	5 dressings per box	A6238
401849	8" x 9" (Inner pad 6.1" x 5.2")	5 dressings per box	A6238

CombiDERM® Non-Adhesive Dressing

CombiDERM® Non-Adhesive Dressing is a thin-profile cover dressing that keeps excess moisture away from the wound, locking in exudate while maintaining a moist wound healing environment. It can be used over moderately to heavily exuding wounds including pressure ulcers, leg ulcers, diabetic ulcers, abrasions, lacerations, biopsies, and open and closed surgical wounds.

Sizes listed below represent overall dressing dimensions.

Product Code	Size	Qty.	HCPCS
187774	3" x 3" (Inner pad 2.1" x 2.1")	10 dressings per box	A6234
187773	5.25" x 5.25" (Inner pad 4.25" x 4.25")	10 dressings per box	A6235
187775	6" x 10" (Inner pad 9.1" x 5.1")	5 dressings per box	A6236

CarboFlex® Odor Control Dressing

CarboFlex® Odor Control Dressing with Hydrofiber® technology is designed to manage malodorous wounds through an innovative, multi-layered sterile dressing design. It creates a gel in the presence of drainage and provides odor control and absorbency in *in vitro* testing. It is an easy-to-use non-adhesive dressing. It can be used on venous leg ulcers, fungating carcinomas, fecal fistula, and infected surgical wounds.

Product Code	Size	Qty.	HCPCS
403202	4" x 4"	10 dressings per box	A6196
403203	3" x 6"	5 dressings per box	A6197
403204	6" x 8"	5 dressings per box	A6197

Compression

Compression

SurePress® High Compression Bandage

SurePress® high compression bandage is an elastic wrap that provides sustained, graduated compression in an easy to use format. This reusable bandage has a yellow center line and two rectangular extension indicators for easier application which provide an appropriate amount of compression for a variety of leg sizes. It is indicated for the management of venous leg ulcers and associated conditions. It can be used alone or in combination with SurePress® absorbent padding.

Product Code	Size	Qty.	HCPCS
650947	4" x 3.2 yds	1 bandage per box	A6452
SurePress® Absorbent Padding 650948	4" x 3.2 yds	6 paddings per pack	A6441

UNNA-FLEX® Elastic Unna Boot

The UNNA-FLEX® elastic unna boot provides the benefit of an unna boot without being rigid. It is indicated for the management of venous leg ulcers and associated conditions. It is contraindicated for the management of arterial and mixed venous/arterial ulcers.

Product Code	Size	Qty.	HCPCS
650940	3" x 10 yds	12 individually packaged bandages per box	A6456
650941	4" x 10 yds	12 individually packaged bandages per box	A6456

UNNA-FLEX® Convenience Pack*

The UNNA-FLEX® convenience pack contains both an UNNA-FLEX® elastic unna boot and a compression bandage.

Product Code	Size	HCPCS
650944	Each Convenience Pack Contains: - (1) 4" x 10 yds. Unna-Flex® Elastic Unna Boot - (1) 4" x 5 yds. Self-Adherent bandage 12 convenience packs per case - sold only in case quantities	A6456 A6454

*CAUTION: This product contains a natural rubber latex which may cause allergic reactions.

Wound Pouches and Specialty Products

Specially designed to offer skin protection and contain drainage from wounds, fistulas and difficult stoma sites.

**Eakin® Fistula and Wound Pouch**

Suitable for cutting area of 1.8" x 1.2"

Product Code	Size	Qty.

Ostomy Care Products

Ostomy Skin Care & Accessory Products

AllKare® Protective Barrier Wipe

Non-water soluble formula for skin protection. Provides a barrier film layer on the skin under tapes, skin barriers/wafers, adhesives, and hydrocolloid dressings to help protect against irritation, excoriation and adhesive build-up.

Product Code	Qty.	HCPCS
037439	50 wipes per box	A5120
037444	100 wipes per box	A5120

AllKare® Adhesive Remover Wipe

For the gentle removal of all adhesives, including skin barriers, tapes, and hydrocolloid dressings. The AllKare® Adhesive Remover Wipe formula effectively removes tape, skin barrier/wafer, and adhesive residues from the skin that can reduce wear times.

Product Code	Qty.	HCPCS
037436	50 wipes per box	A4456
037443	100 wipes per box	A4456

Stomahesive® Paste

Pectin-based Protective Skin Barrier

Use as a filler in uneven skin surfaces to help increase ostomy system wear time and protect skin.

Product Code	Size	Qty.	HCPCS
183910	2 oz tube	1 tube per box	A4406

Stomahesive® Protective Powder

Helps form a protective barrier against excoriated or weeping skin.

Product Code	Size	Qty.	HCPCS
025510	1 oz bottle	per bottle	A4371

Stomahesive® Skin Barrier

A multipurpose skin barrier designed to help protect peristomal skin and assist in the management of difficult stomas. Available in sterile and non-sterile forms.

Product Code	Size	Qty.	HCPCS
Non-Sterile			
021712	4" x 4" Wafers	5 per box	A4362
021715	8" x 8" Wafers	3 per box	A5122
Sterile			
021901	4" x 4" Wafers	5 per box	A4362

Stomahesive® Strips

(Moldable Adhesive)

Double sided Stomahesive® Strips for use as a filler to protect or fill-in uneven skin surfaces next to an ostomy, fistula, or wound.

Product Code		Qty.	HCPCS
025542	3 cards of 5 strips each	15 per box	A4362

Eakin Cohesive® Seals

A donut-shape ostomy accessory that can be molded to a variety of shapes. It acts as a gasket or barrier, and provides enhanced protection for hard-to-fit stomas. The moldable hydrocolloid barrier forms a gel that helps prevent skin damage by sealing the area between the skin and ostomy appliance.

Product Code	Size	Qty.	HCPCS
839002	Small 2"	20 per box	A4385
839001	Large 4"	10 per box	A4385

Eakin Cohesive® Skin Barrier

Eakin Cohesive® Skin Barrier is moldable and moisture-absorbing. It is designed to help protect the skin from contact with body fluids. It is used wherever the skin is damaged, excoriated or vulnerable and needs protection from body wastes and fluids.

Product Code	Size	Qty.	HCPCS
839004	Small 4" x 4"	5 per box	A4385
839003	Large 4" x 8"	5 per box	A4385

DuoLock® Curved Tail Closures

For use with SUR-FIT Natura®, Esteem *synergy*®, ActiveLife®, and SUR-FIT® AutoLock® Drainable Pouches

Product Code	Qty.	HCPCS
175652	10 per box	A4363

ConvaTec® Tail Closures

For use with SUR-FIT Natura®, Esteem *synergy*®, ActiveLife®, and SUR-FIT® AutoLock® Drainable Pouches

A clicking noise can be heard when closing the tail closure to ensure security. Prior to initial use, open and close several times.

175507	1 per box	A4367

SUR-FIT Natura® Two Piece Products

When it comes to SUR-FIT Natura® ostomy products, we recommend you take a look at the innovative pouch and skin barrier features that have been combined with our Stomahesive® and Durahesive® adhesives. The SUR-FIT Natura® ostomy system offers special moldable skin barriers for a personalized, snug fit around the stoma to help protect skin. The SUR-FIT Natura® drainable pouch is available with a filter that is designed to reduce odor and ballooning.

Also available for post operative tenderness after surgery is the SUR-FIT Natura® Low-Pressure Adaptor. The SUR-FIT Natura® Low-Pressure Adaptor allows clinicians and patients to attach the pouch to the skin barrier without having to press directly on the abdomen. The SUR-FIT Natura® Low-Pressure Adaptor can be connected to any combination of SUR-FIT Natura® wafers and pouches with the same flange size.

SUR-FIT Natura® Durahesive® Skin Barriers

Durahesive® skin barriers/wafers are designed for people whose stoma output is mostly liquid. Unlike other skin barriers/wafers that can break down around liquid output, Durahesive® skin barriers/wafers swell up to protect the stoma. This special effect, called *turtlenecking*, helps create a more secure seal without harming the skin. Durahesive® skin barriers/wafers are also easy to fit, apply, and remove. They will adhere securely to the skin while showering, bathing, and swimming.

SUR-FIT Natura® Moldable Durahesive® Skin Barrier with Hydrocolloid Flexible Collar
with white Hydrocolloid flexible collar and Mold-to-Fit opening

Product Code	Color Match	Size	Qty.	HCPCS

SUR-FIT Natura® Stomahesive® Skin Barriers

Stomahesive® skin barriers/wafers are ideal for people whose stoma output is semi-formed to formed stool. This reliable skin barrier/wafer provides a special formula that enables the skin barrier/wafer to adhere to both dry and moist skin. It holds firmly to skin while helping to protect against irritating output. Another feature of the Stomahesive® skin barrier/wafer is an outer protective coating which helps keep it in place. The skin barriers will maintain adhesion to the skin when showering, bathing, and swimming. Plus, Stomahesive® skin barrier/wafers are easy to fit, apply, and remove.

1 3/8"	2 1/4"	1 5/8"

SUR-FIT Natura® and SUR-FIT® AutoLock® Disposable Convex Inserts are not available for stoma sizes wider than 1 3/8".

SUR-FIT Natura® Low-Pressure Adaptor

The SUR-FIT Natura® Low-Pressure Adaptor allows extra finger space to attach the pouch to the skin barrier without having to press directly on the abdomen. This feature provides greater comfort to patients who have abdominal tenderness after ostomy surgery. This is a temporary and disposable product. For optimal performance the SUR-FIT Natura® Low-Pressure Adaptor should be changed with every new skin barrier change. The SUR-FIT Natura® Low-Pressure Adaptor works in conjunction with the SUR-FIT Natura® skin barriers and pouches with the same flange size.

SUR-FIT Natura® Low-Pressure Adaptor

401995	●	70 mm (2 3/4")	10 pack	A4421
401996	●	100 mm (4")	10 pack	A4421

SUR-FIT Natura® Drainable Pouches

SUR-FIT Natura® drainable pouches have soft, fabric-like comfort panels. With streamlined body contour panels, low-profile design, and less headroom, they distribute pouch content more evenly and away from the stoma. All drainable pouches have a wide tail opening for easier emptying.

The SUR-FIT Natura® drainable pouches are also available with the InvisiClose® tail closure system and an advanced filter. The InvisiClose® clipless tail closure offers double security, ease of drainage, comfort and cleanliness. The easy to open outlet end strips and tail design help control flow and reduce splashing. The locking mechanism is enhanced by an additional security flap for added peace of mind. The advanced air filter is designed to let gasses through while repelling liquids.

SUR-FIT Natura® Closed-End Pouches

SUR-FIT Natura® Closed-End pouches are designed for one-time usage, and may be used everyday, for special occasions or intimate moments. They are available with a filter that is designed to reduce odor and gas buildup. There's no draining or uncomfortable clip to worry about. When you're ready, you simply remove the pouch, place it into a disposable bag, then discard it.

Each kit contains one Accuseal® night drainage adapter.

* HCPCS Code is determined by the size of the barrier mass excluding the tape collar.

Gentle Touch® Postoperative Products

Gentle Touch® Postoperative kits are designed for post-surgical use following a colostomy, ileostomy or urostomy procedure. They provide easy pouch to skin barrier/wafer application and require less pressure on tender post-surgical abdomens. They can also be used in the management of abdominal fistulas or draining surgical wounds.

Gentle Touch® System - Colostomy/Ileostomy Postoperative System - Sterile

Set includes:

- 1 Stomahesive® Skin Barrier with SUR-FIT® Flange
- 1 SUR-FIT® Drainable Postoperative Pouch (12" Transparent) with Gentle Touch® Flange
- 1 Tail Closure

Product Code	Color Match	Size	Qty.	HCPCS

* HCPCS Code is determined by the size of the barrier mass excluding the tape collar.

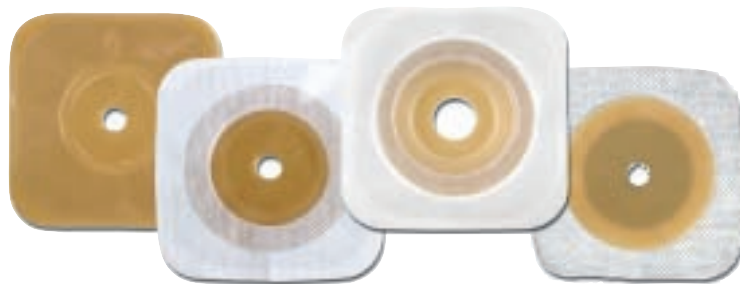

Esteem synergy® Two-Piece Ostomy System

The Esteem synergy® ostomy system utilizes an Adhesive Coupling Technology™ that connects the pouch to the skin barrier and eliminates the need for plastic rings that must be snapped or locked together. Esteem synergy® is ConvaTec's two-piece product that provides the skin friendliness and versatility of a two-piece system, as well as the low profile, comfort, and flexibility of a conventional one-piece system.

The Esteem synergy® ostomy system has a flat, flexible adhesive foam ring on a pouch that securely connects with a clear, flat, flexible plastic "Landing Zone" flange on a skin barrier. It is easy to apply and easy to remove.

Esteem synergy® Skin Barriers

The Landing Zone flange on the skin barrier is square and is slightly larger in size compared to the round adhesive ring on the pouch. This makes the application process easy - precise alignment is not necessary.

Esteem synergy® Durahesive® Moldable Convex Skin Barrier
with landing zone flange
with white tape collar and cut-to-fit opening

Product Code	Color Match	Stoma Opening	Overall Dimensions	Qty.	HCPCS

Esteem synergy® Drainable Pouches

The ergonomically shaped Esteem synergy® drainable pouches are designed to complement body contours and add to ease of emptying. Esteem synergy® drainable pouches have an advanced air filter which is designed to let gasses through while repelling liquids.

Esteem synergy® drainable pouches are also available with the InvisiClose® tail closure system. The InvisiClose® clipless tail closure offers double security, ease of drainage, comfort and cleanliness. The easy to open outlet end strips and tail design help control flow and reduce splashing. The locking mechanism is enhanced by an additional security flap for added peace of mind.

Esteem synergy® Closed-End Pouches

Esteem synergy® closed-end pouches are designed for one-time usage, and may be used for every day use, special occasions or for intimate moments. The Esteem synergy® ostomy system features an advanced filter system designed to absorb and neutralize a broad range of odor-causing agents. Four slits on the filter with removable stickers allow for individual control over the speed of the gas release.

Esteem® One-Piece Ostomy System

Esteem® One-Piece Ostomy System offers one step application, which means no need to attach pouches to barriers. It is easy to teach and use and the InvisiClose® tail closure eliminates the need for a clip. ConvaTec utilizes a modified Stomahesive® skin barrier to achieve desirable adhesive security while being gentle to the skin. Its flexible oval-shaped barrier molds to the contour of the body and the curved pouch shape provides maximum comfort during wear.

Little Ones® Pediatric Ostomy System

With the ConvaTec **Little Ones® Ostomy System**, finding the right ostomy system is elementary. With all the challenges that go with raising a child, finding the right ostomy product needn't be one of them. That's because ConvaTec has a line of products designed just for kids. The line features products for children who have had colostomy, ileostomy, or urostomy surgery. As with our adult line, Little Ones® offers a full range of products to meet any child's need or parent's preference. Each has been scaled down in size to comfortably fit a child's unique body contour. Little Ones® products are designed with an active child in mind. They're flexible, durable, and easy to remove, so there's minimal discomfort and parents love them because they let kids get on with the business of just being kids!

Ostomy Glossary of Terms

Abdomen — area of the body between the chest and the hips in the front part of the body that contains the digestive organs

Adhesive Coupling Technology™ — a two-piece ostomy pouching system that attaches with a tape-like adhesive rather than plastic rings snapping together

Closed-end pouch — a pouch that has no opening at the bottom and is removed and discarded after each use

Colostomy — a surgically-created opening between the large intestine (colon) and the abdominal surface

Comfort panels — ConvaTec pouches are available with 1-sided and 2-sided comfort panels for your convenience

Convexity — Convex products may be used when a stoma empties at or below the skin surface; when there are creases, wrinkles or scars near the stoma, and/or when the abdomen is very soft around the stoma.

Drainable pouch — has an opening at the bottom which allows stool or urine to be drained and re-closed with a clip or self-gripping fastener hook tape

Durahesive® — is an extended wear barrier that provides the ultimate in security and adhesion for people with liquid to semi-liquid outputs

Durahesive Plus® — is an extended wear barrier available in a one-piece cut-to-fit pouch

Film — all ConvaTec pouches have built in layers that help reduce the rustling noise under clothing, and a built in odor-barrier

Filter — some ConvaTec pouches have an integral filter that helps reduce gas buildup within the pouch

Fistula — an abnormal tube-like passageway between one hollow organ in the body and another hollow organ, or the skin

Ileostomy — a surgically-created opening between the small intestine (ileum) and the abdominal surface

One-piece ostomy pouching system — the skin barrier/wafer and pouch are made as one

Ostomy — a surgically-created opening (called a stoma) in the gastrointestinal system to allow the passage of stool or in the urinary system to pass urine

Peristomal skin — the skin surrounding a stoma

Pouch with spout — drainage tap or spout at the bottom of the pouch to empty urine or liquid stool

Pre-cut — some ConvaTec skin barriers are available pre-cut to certain stoma sizes

Skin barrier/wafer — round or square-shaped with a sticky side that is applied to the skin around the stoma (called peristomal skin). Helps protect the skin from stool or urine, which can be very irritating

Stoma — a surgically-created opening on the abdomen surface. Also commonly called an ostomy. Stool or urine leaves the body through this opening instead of the anus or urethra

Stomahesive® — is a skin barrier that provides excellent security for people with semi-formed to formed output because of its special formulation that enables it to adhere to both dry and wet skin

Tape collar — ConvaTec skin barriers are available with or without tape collars. Most skin barriers with tape collars are available in white, dye-free tape or tan tape

Two-piece ostomy pouching system — skin barrier/wafer and pouch are separate and attached together with a round, plastic ring (called a flange). Pouch can be easily removed without also having to remove the skin barrier/wafer

Urostomy — a surgically created opening which allows urine to pass

A4398	Ostomy Irrigation Bag	2 per 6 months
A4399	Ostomy Irrigation Cone/Catheter, and Brush	2 per 6 months
A4406	Ostomy Skin Barrier, Pectin-Based, Paste	4 oz per month
A4407	Skin Barrier, w/Flange, Extended Wear w/ Convexity	As needed
A4409	Skin Barrier, w/Flange, Extended Wear <= 4x4	As needed
A4410	Skin Barrier, w/Flange, Extended Wear > 4x4	As needed
A4413	Pouch, Drainable, High Output, for Barrier w/Flange	As needed
A4414	Skin Barrier, w/Flange, <= 4x4	20 per month
A4415	Skin Barrier, w/Flange, > 4x4	20 per month
A4416	Pouch, closed, w/Barrier Attached, w/Filter	60 per month
A4419	Pouch, closed for use on Barrier w/Flange, w/Filter	60 per month
A4421	Ostomy Supply, Miscellaneous	As needed
A4423	Pouch, closed, for use on Barrier w/Locking Flange, w/Filter	60 per month
A4424	Pouch, Drainable, w/Filter w/Barrier Attached	20 per month
A4425	Pouch, Drainable, with filter for use w/Flange	20 per month
A4426	Pouch, Drainable for use on Barrier w/Locking Flange	20 per month
A4428	Pouch, Urinary, w/ Extended Wear Barrier w/Faucet-type Tap	As needed
A4432	Pouch, Urinary, for use on Barrier w/Flange, w/Faucet-type Tap	20 per month
A4434	Pouch, Urinary for use on Barrier w/Locking Flange, w/Faucet-type Tap	20 per month
A5054	Pouch Closed, for Barrier w/Flange	60 per month
A5055	Stoma Cap, each	31 per month
A5061	Pouch, Drainable, w/Barrier Attached	20 per month
A5063	Pouch, Drainable, for use w/Flange	20 per month
A5071	Pouch, Urinary, w/Barrier Attached	20 per month
A5073	Pouch, Urinary, for Barrier w/Flange	20 per month

HCPCS (Universal Product Code)	HCPCS Descriptors	Medicare Usual Maximum Qty.
A5093	Ostomy Accessory, Convex Insert	10 per month
A5102	Bedside Drainage Bottle w/ or wo/ tubing, rigid or expandable	2 per 6 months
A5120	Skin Barrier, Wipes, each	150 per 6 months
A5122	Skin Barrier, Solid, 8 X 8 or Equivalent	20 per month
A6196	Alginate or other fiber gelling dressing, wound cover, pad size <= 16 sq. in., each	1 per day
A6197	Alginate or other fiber gelling dressing, wound cover, pad size >16, but < =48 sq. in., each	1 per day
A6198	Alginate or other fiber gelling dressing, wound cover, pad size >48 sq. in., each	1 per day
A6199	Alginate or other fiber gelling dressing, wound filler, per 6 inches	12" per day
A6209	Foam dressing, wound cover, pad size <= 16 sq. in. wo/adhesive border, each	3 per week
A6210	Foam dressing, wound cover, pad size >16 but <= 48 sq. in. wo/adhesive border, each	3 per week
A6211	Foam dressing, wound cover, pad size > 48 sq. in. wo/adhesive border, each	3 per week
A6212	Foam dressing, wound cover, pad size <= 16 sq. in. w/adhesive border, each	3 per week
A6213	Foam dressing, wound cover, pad size >16 but <= 48 sq. in. w/adhesive border, each	3 per week
A6214	Foam dressing, wound cover, pad size > 48 sq. in. w/adhesive border, each	3 per week
A6234	Hydrocolloid dressing, wound cover pad <= 16 sq. in., wo/adhesive border, each	3 per week
A6235	Hydrocolloid dressing, wound cover pad >16 but <= 48 sq. in., wo/adhesive border, each	3 per week
A6236	Hydrocolloid dressing, wound cover pad > 48 sq. in., wo/ adhesive border, each	3 per week
A6237	Hydrocolloid dressing, wound cover pad <= 16 sq. in., w/adhesive border, each	3 per week
A6238	Hydrocolloid dressing, wound cover pad >16 but <= 48 sq. in., w/adhesive border, each	3 per week
A6240	Hydrocolloid dressing, wound filler, paste, per oz	3 per week
A6248	Hydrogel dressing, wound filler, gel, per oz	3 oz per month
A6441	Padding bandage, non-elastic, non-woven/non-knitted, width >= 3" but < 5", per yard	1 per week
A6446	Conforming bandage, non-elastic, knitted/woven,sterile, width >= 3" but < 5", per yard	1 per week
A6452	High compression bandage, elastic/woven, load resistance >= 1.35 foot pounds at 50% max stretch, width >= 3" but < 5", per yard	1 per week
A6456	Zinc paste impregnated bandage, non-elastic, knitted/woven, width >= 3" but < 5", per yard	1 per week
