

# ICAN *live free*

## ESTEEM™ Flex Convex

## THE FLEXIBILITY TO LIVE LIFE ON YOUR TERMS

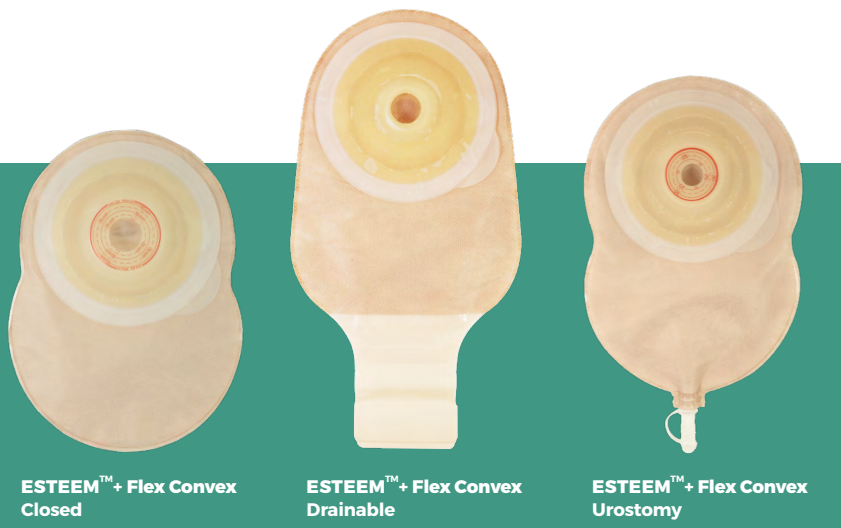

As the latest addition to our range of one-piece ostomy solutions, the Esteem™+ Flex Convex system combines the comfort and freedom of flexibility with the firmness of convexity.

The Esteem™+ Flex Convex system fits the contours of your body, moving with you and helping to give you the confidence to live life the way you want.

Available in a choice of closed, drainable and urostomy pouches, with a variety of pre-cut and cut-to-fit options to suit a range of stoma shapes and sizes.

### Key benefits include:

- **Moves with you** – flexible convexity fits to body contours for comfort and easy positioning
- **Designed for skin health and security** – hydrocolloid skin barrier is made to stay firmly in place, helping to minimise leakage. Soft tapered edges also help resist snagging on clothing
- **Comfort and discretion** – soft quiet fabric
- **Trust and reassurance** – filter on closed and drainable options helps minimise odours and ballooning, while the anti-reflux valve on our urostomy pouches helps prevent backflow
- **Peace of mind** – split-fabric, easy-view window for accurate positioning and observation
- **Simple secure fastening** – the Safe Seal clipless closure on drainable options helps make cleaning and emptying easy
- **Support and security** – soft flexible belt loops available for added security

# SUPPORT AND ADVICE EVERY STEP OF THE WAY

**We aim to help people be much more than their ostomy.**

We continue to work hard to innovate and bring new advances in product design, all focused on improving the life of every person living with a stoma.

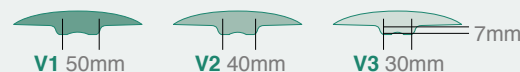

This commitment is providing people with new choices and allowing them the freedom to live the life they want.

To find out more about our ostomy solutions or if you would like to talk to us, please get in touch on – **0800 282 254**.
