The Natura® Accordion Flange™

HELPS MINIMIZE PRESSURE ON ABDOMEN

COMPREHENSIVE RANGE TO SUIT
ALL PATIENTS

INTUITIVE AND EASY-TO-USE DESIGN

Low
profile in
'DOWN'
position

Reassuring
'click-lock'

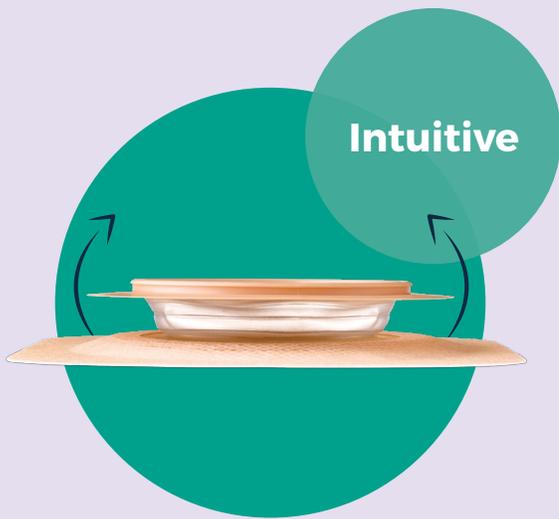

More
space for
coupling

AT A GLANCE

Helps minimize pressure on the abdomen

Accordion Flange™ skin barriers lift a generous finger's width away from the body so your patients can attach their pouch with minimal pressure on their abdomen.

- Intuitive design so patients can quickly get back to their everyday life
- **Lift 'UP'** flange to easily attach the pouch away from the body
- Designed to be suitable for people with compromised dexterity or limited eyesight

Comprehensive portfolio to suit a wide range of patients

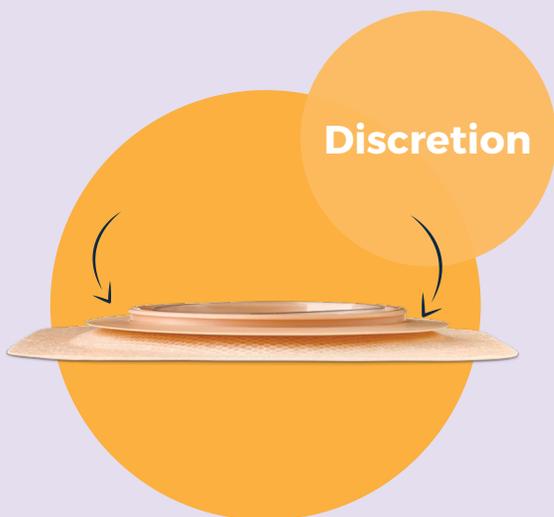

Tailored solutions to suit patients' lifestyles and a variety of abdomens and stomas, ensuring continuum of care from hospital to home and throughout their life with an ostomy.

Designed for intuitive ease of use

Smart features to help patients quickly adapt to managing an ostomy, including the lift-UP flange for easy coupling away from the body and a click lock for security and confidence.

- Created to help minimize abdomen pressure and pain when attaching the pouch
- **Audible 'click' and physical 'snap'** to confirm the pouch is firmly attached

- Low profile in the 'DOWN' position so it's not visible under clothing
- Skin barrier moves as your patient's body flexes

NATURA® ACCORDION FLANGE™

Allows people living with ostomy to get on with living life to their fullest.

Three types of Accordion Flange™ skin barriers, available with a wide range of Natura+® comfort pouch variants.

Designed to make pouch application much easier for people living with an ostomy.

Available in Flat Cut-To-Fit, Convex Cut-to-Fit and Flat ConvaTec Moldable Technology™.

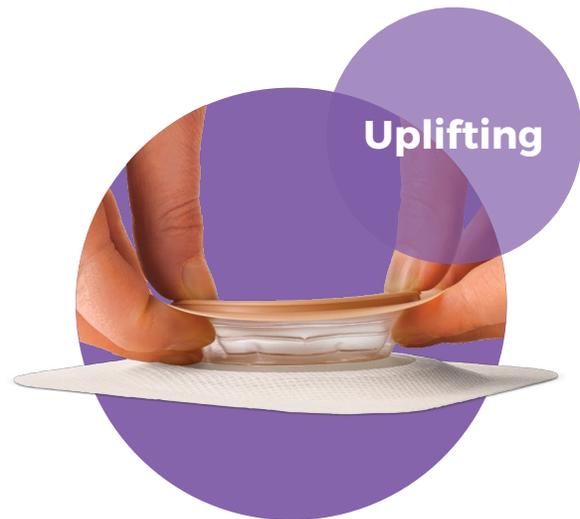

1. Natura® Accordion Flange™ Flat Cut-To-Fit

The Natura® Accordion Flange™ Flat Cut-To-Fit skin barrier is designed for regular-shaped abdomens and protruding stomas.

The flange lifts gently away from the body to securely click and lock with our Natura+™ pouch. Patients can simply cut the skin barrier to fit their stoma shape and size.

Flat Cut-To-Fit is available in Stomahesive® and Durahesive® with Acrylic Collar

- The flange lifts a generous finger's width away from the body
- Helping patients transition smoothly from hospital to their home

2. Natura® Accordion Flange™ Convex Cut-To-Fit

The Natura® Accordion Flange™ Convex Cut-To-Fit skin barrier is designed for flush, retracted, loop or telescopic stomas.

The skin barrier pushes gently down on peristomal skin to help protrude a flush or retracted stoma. Additionally, the Accordion Flange™ lifts a finger's width away from the abdomen to make coupling as easy and comfortable as possible.

Convex Cut-To-Fit is available in Durahesive® with Hydrocolloid and Acrylic Collar

**Convexity
shown to
improve quality
of life³**

- **Easier to manage a variety of stoma and abdomen sizes and shapes¹**
- **Presses skin evenly to improve the protrusion of the stoma²**
- **Designed to help minimize leaks for healthier skin³**

1. Rolstad BS. Principles and techniques in the use of convexity. *Ostomy Wound Manage.* 1996; 42(1):24-32.

2. Hanley J. Convex stoma appliances: are we getting it right? *British Journal of Nursing (Stoma Supplement).* 2013;12-16

3. Cronin E. A guide to the appropriate use of convex stoma care products. *Gastrointestinal nursing.* 2008;6(2) Accessed 29 Feb, 2016.

3. Natura® Accordion Flange™ Flat Moldable

The Natura® Accordion Flange™ is available with our unique ConvaTec Moldable Technology™ which gently molds to your patient's stoma. Clinically proven skin protection¹ for regular-shaped abdomens and protruding stomas.

Flat ConvaTec Moldable Technology™ is available in Stomahesive® and Durahesive® with Hydrocolloid Collar

Over 95% of people who started with Moldable Technology™ kept healthy skin¹

- **Soft, pliable elastic-like seal that rolls open to fit the size and shape of your patient's stoma.**
- **Flexible but strong enough to hold firm, comfortably 'hugging' the stoma to help minimize gaps and leaks**
- **Designed to provide a secure and snug fit that helps minimize leaks for healthier skin¹**
