

2022 Product Catalog

Effective January 1, 2022

"There is hope and
there is light. Being
happy is a choice
that you can make.
It's your choice."

Dana

More than just great products – me+™ brings you the tools and advice to help you make life with an ostomy completely your own.

**me+™
care**

Products, supplies
and advice for the
first few weeks at
home.

**me+™
support**

Live nurses by
phone or email for
any questions you
may have.

**me+™
answers**

An in-depth
resource covering
everything ostomy.

**me+™
recovery**

Provides information
and support about
the importance of
movement and
physical activity after
ostomy surgery.

**me+™
community**

Inspiring stories and
ideas from others
living with
an ostomy.

Join for free and start receiving all the benefits of me+™.

ConvaTec

Customer Relations Center: What is it?

The Customer Relations Center (CRC) is ConvaTec's living communication hub of ostomy, wound, and continence and critical care expertise.

For healthcare professionals:

- Clinical information and technical data on our products
- New product information
- Samples for your patients
- Patient literature on ostomy, wound, continence and critical care
- Advanced wound care expertise

For retailers:

- Technical assistance & product questions
- Samples for your customers
- Contact with Territory Managers

For people living with an ostomy:

- Free product samples
- Helpful literature
- Expert advice on how to care for their stoma

The CRC team: Registered Nurses, NSWOC Nurse,
and Product Specialists

1-800-465-6302

Monday to Friday from 8:00 AM to 6:00 PM (EST)

Toll-free fax: 1-877-437-1777

Note: In order to avoid misunderstanding and to protect the interest of our customers, we respectfully request careful reading of the "Terms and Conditions of Sale", as outlined. Non-compliance with these terms may result in suspension of your account.

GENERAL INFORMATION

TERMS AND CONDITIONS OF SALE

PRICES AND TERMS OF SALE

Prices and terms listed herein supersede those set forth on all previous price lists and all contracts and agreements that are expired. Due to market fluctuation, prices shown are subject to change without notice. **RESTRICTION OF PURCHASE & SALES:** Purchase of ConvaTec products must be done through the Canadian order desk at 1-866-987-1471 or indirectly through a distributor who purchases **directly from ConvaTec Canada**. These products are **not for distribution or resale outside of Canada** or to anyone who - to the customers' knowledge - is susceptible to this practice.

PAYMENT TERMS

TERMS ARE NET 30 DAYS FROM DATE OF INVOICE.

Electronic Fund Transfers (EFT) are possible, please contact the Order Desk.

CHANGES IN PRICES

In all cases, merchandise will be invoiced at prices in effect on the date the order is received. Any pricing discrepancy **MUST** be reported within 60 days.

MINIMUM SHIPMENTS AND TRANSPORTATION COSTS

All orders amounting to a minimum of \$250 before tax for retail accounts and for health care facilities will be shipped prepaid via seller's choice of carrier. Any orders of value less than the required minimum will be subject to a \$50 service charge. Extra shipping costs incurred because of special services requested by a customer will be added to the invoice.

SHIPMENTS

Title to merchandise passes to the customer upon delivery of the goods to the customer.

SHORTAGE, DAMAGE OR LOSS IN SHIPMENT

Merchandise released for shipment leaves the depot in good order. Claims for damage, defacement or loss occurring in transit should be filed promptly with the transportation company. Customers should contact the Order Desk for processing of such claims and in supplying proof of delivery, providing these requests are received within 21 DAYS following the date of shipment. **ANY COSTS INCURRED WILL BE PASSED ALONG TO THE CUSTOMER IF PROOF OF DELIVERY IS ESTABLISHED.**

RETURNED GOODS POLICY

All returns **MUST** have written authorization from the Order Desk (telephone: 1-866-987-1471). This authorization will be confirmed by the representative and the credit will only be issued after inspection of the returned goods by ConvaTec. **RETURNED GOODS WILL BE CREDITED AT ZERO IF NOT ACCOMPANIED BY A RETURN AUTHORIZATION NUMBER OR DOCUMENT.** Order desk may ask for copy of purchase order for compliance purposes.

- All merchandise returned for credit must be prepaid and received in the original unopened containers. Partially full containers, those from which the seal, carton or label have been defaced or removed, will not be credited under any circumstances. Goods for return should be packaged carefully before sending to ConvaTec; products and containers received with any signs of damage will not be credited. **ConvaTec will not ship back products that have been sent to us, as such, please ensure you respect the terms and conditions before sending products to ConvaTec.**
- Products shipped in error by ConvaTec Canada will be fully credited if returned within 21 days of invoice, freight collect.
- Products ordered in error will be fully credited **if returned within 21 days of invoice, freight prepaid.**
- There will be a restocking service charge equal to 15% of the invoice price or the lowest price indicated for that product in the current price list.
- All returned goods must have been purchased in the last 12 months.
- All returned goods must have at least 6 months of shelf life remaining.
- All returned goods must be received by ConvaTec within 21 days after the written authorization was issued.
- Products that have been deleted from the line for a period of 6 months or more after date of deletion notification from ConvaTec, including special offers, will not be accepted for credit or exchange.
- Merchandise that has been involved in a fire, flood, sacrifice or bankruptcy sale or returned by other than original purchaser will not be accepted for credit or exchange.

CONSUMER SATISFACTION

We are quality driven and we want the consumers to be completely satisfied with our products. In the event of a product complaint from a consumer, the retailer should refer this consumer to the ConvaTec Customer Relations Center at 1-800-465-6302.

TAXES

Provincial sales tax and/or GST, HST, QST will be charged, if applicable.

THE ABOVE TERMS CANNOT BE MODIFIED BY OUR REPRESENTATIVES.

Ostomy Care Accessories

Diamonds® Gelling and Odor Control Sachets

Gels liquid contents for a flatter, more discreet pouch.

Product Code	Box of
420791	100 Sachets per jar

AllKare® Adhesive Remover Wipe

For the gentle removal of all adhesives, including skin barriers, tapes, and hydrocolloid dressings. The AllKare® Adhesive Remover Wipe formula effectively removes tape, skin barrier/wafer, and adhesive residues from the skin.

Product Code	Box of
37436	50
37443	100

Niltac™ Sting-Free Adhesive Remover Wipe

Non-alcohol, silicone based formula that offers fast removal of adhesive residue while designed to minimize painful skin stripping on removal.¹

Product Code	Box of
Non-Sterile 420788	30

Niltac™ Sting-Free Skin Adhesive Releaser Spray

Non-alcohol, silicone based formula that offers fast release of adhesives from the skin while designed to minimize painful skin stripping on removal.¹

Product Code	Aerosol can size	Box of
Non-Sterile 420787	50 mL	1

1. McNichol L, Lund C, Rosen T, Gray M. Medical Adhesives and Patient Safety: State of the Science; Consensus Statements for the Assessment, Prevention, and Treatment of Adhesive-Related Skin Injuries. JWOCN. 2013;40(4): 365-380.

AllKare® Protective Barrier Wipe

Provides a barrier film layer on the skin under tapes, skin barriers/wafers, adhesives, and hydrocolloid dressings to help protect against irritation and excoriation.

Product Code	Box of
37439	50
37444	100

Sillesse™ Sting-Free Barrier Wipe

Non-alcohol, silicone based formula for skin protection. Provides a barrier film layer on the skin that protects it from the damaging effects of adhesives, body waste and skin irritation caused by enzymatic stomal output.

Product Code	Box of
Non-Sterile 420789	30

Sillesse™ Sting-Free Barrier Spray (non-aerosol)

Non-alcohol, silicone based formula for skin protection. Provides a barrier film layer on the skin that protects it from the damaging effects of adhesives, body waste and skin irritation caused by enzymatic stomal output.

Product Code	Spray bottle size	Box of
Non-Sterile 420790	50 mL	1

Stomahesive® Paste (Pectin-based Protective Skin Barrier)

Use as a filler in uneven skin surfaces to help increase ostomy system wear time and protect skin.

Product Code	Size	Box of
183910	Tube of 56.7 g (2 oz)	1 tube

Eakin Cohesive® Paste (Alcohol-free)

Use to fill crevices, skin folds and scars to help create an even pouching surface. This improves the likelihood of good adhesion and helps reduce the risk of leakage.

Product Code	Size	Box of
839010	Tube of 60 g (2.1 oz)	1 tube

Stomahesive® Protective Powder

This preparation helps protect skin by absorbing excess moisture.

Product Code	Size	Box of
25510	Bottle of 28.3 g (1 oz)	1 bottle

Stomahesive® Skin Barrier

A multipurpose skin barrier designed to help protect peristomal skin.

Product Code	Size	Box of
Non-Sterile 21712	approx. 10 cm X 10 cm (4" x 4")	5
Non-Sterile 21715	approx. 20 cm X 20 cm (8" x 8")	3

Stomahesive® Strips (Moldable Adhesive)

Double sided Stomahesive® Strips for use as a filler to protect or fill in uneven skin surfaces next to an ostomy, fistula, or wound.

Product Code	Size	Box of
25542	approx. 15 mm X 120 mm (1" X 5")	15

Eakin Cohesive® Seals

A donut-shaped ostomy accessory that can be molded to a variety of shapes. It acts as a gasket or barrier, and provides enhanced protection for hard-to-fit stomas. The unique moldable hydrocolloid barrier forms a gel that helps prevent skin damage by sealing the area between the skin and the ostomy appliance.

Product Code	Size	Box of
839002	Small 5 cm (2")	20
839001	Large 10 cm (4")	10
839005	SLIMS™ 5 cm (2")	10

Eakin Cohesive® StomaWrap™

Designed for large or oval shaped stomas and for people with limited dexterity, it allows for a quick pouching routine.

Product Code	Size	Box of
839006	8.5 cm (3")	10

Eakin Cohesive® Skin Barrier

A moldable and moisture-absorbing skin barrier. It is designed to help protect the skin from contact with body fluids. It is used wherever the skin is damaged, excoriated or vulnerable and needs protection from body wastes and fluids.

Product Code	Size	Box of
839004	Small 10 cm X 10 cm (4" x 4")	5
839003	Large 10 cm X 20 cm (4" x 8")	5

DuoLock® Curved Tail Closures

For use with ConvaTec Drainable Pouches

Product Code	Box of
175652	10

ConvaTec® Tail Closures

For use with ConvaTec Drainable Pouches

Product Code	Box of
175635	10

Other Accessories

Orabase® Oral Protective Paste

For temporary relief of minor discomfort and protection of irritated areas of the mouth and gums.

Product Code	Size	Box of
62436	7.5 g tube	12 tubes

Note: Sold only in minimum quantities of one dozen.

Ostomy Appliance Belt

Adjustable up to 107 cm (42")

May help provide an added sense of security.

Product Code	Box of
175507	1

ConvaTec® Night Drainage Container Set

Set contains:

- 1 ConvaTec® Night Drainage Container with tubing
- 1 ConvaTec® Night Drainage Container Cover
- 1 universal adapter

Product Code	Box of
27060	1 set

ConvaTec® Night Drainage Container Tubing

Product Code	Box of
27062	1

ConvaTec® Loop Ostomy Rod Package – Sterile

For use with ConvaTec Post Operative Size,
70 mm (2 3/4") flange

Product Code	Size	Box of
22355	65 mm	10

For use with ConvaTec Post Operative Size,
100 mm (4") flange

Product Code	Size	Box of
22356	90 mm	10

Visi-Flow® Irrigation Products

Visi-Flow® Irrigator with Stoma Cone

Visi-Flow® Irrigator with stoma cone is designed for individuals with a colostomy for whom irrigation is indicated.

The Visi-Flow® Irrigator features a front-fill reusable bag with an exclusive “paddle wheel” flow indicator, thumb-control flow regulator, bold-print volume graduations and a flexible stoma cone attachment.

Product Code	Size	Box of
401989	2000 mL capacity (67 oz)	1

Visi-Flow® Irrigation Sleeve

Transparent

(compatible with Natura® skin barriers)

Product Code	Color Match	Flange Size	Box of
401911	Orange	38 mm (1 1/2")	5
401912	Green	45 mm (1 3/4")	5
401913	Red	57 mm (2 1/4")	5
401914	Blue	70 mm (2 3/4")	5

One tail closure per box.

Visi-Flow® Stoma Cone

Product Code	Box of
22736	1

Visi-Flow® Irrigation Sleeve Tail Closure

Product Code	Box of
175650	10

Visi-Flow® Irrigation Adapter Faceplate

For clients using a 1-piece system, this adaptor is required to perform irrigations.

Place the adaptor around the stoma, hold in place with the ostomy belt, so that the irrigation sleeve can be attached to perform the irrigation.

Product Code	Flange Size	Box of
401918	45 mm (1 3/4")	1
401919	70 mm (2 3/4")	1

Natura[®] Two-Piece Ostomy Systems

An innovative line of pouches and
skin barriers for every lifestyle.

Natura® Two-Piece Products

The Natura® Two-Piece Ostomy System is ConvaTec's most extensive two-piece product line. The Natura® Flange System signals a secure, accurate closure with a series of audible "clicks." A simple snap-off, snap-on design allows users to change the pouch or pouch style quickly to match activities without removing the skin barrier from the skin.

When it comes to Natura® ostomy products, we recommend you take a look at the innovative pouch and skin barrier features that have been combined with our Stomahesive® and Durahesive® adhesives. The Natura® ostomy system offers special moldable skin barriers for a personalized, custom fit around the stoma to help protect the skin. Natura® pouches are available in drainable, closed-end, urostomy, transparent and opaque. In addition, they are available with a filter and with the InvisiClose® clipless tail closure.

Natura® Stomahesive® and Durahesive® Skin Barriers

(compatible with Natura® and Natura®+ pouches)

Stomahesive® skin barriers are ideal for people whose stoma output is semi-formed to formed stool. This reliable skin barrier provides a special formula that enables the skin barrier to adhere to both dry and moist skin. It holds firmly to skin while helping to protect against irritating output. Another feature of the Stomahesive® skin barrier is an outer protective coating which helps keep it in place. Plus, Stomahesive® skin barriers are easy to fit, apply, and remove.

Durahesive® skin barriers are designed for people whose stoma output is mostly liquid. Unlike other skin barriers/wafers that can break down when exposed to liquid output, Durahesive® skin barriers/wafers swell up to protect the stoma. This special effect, called turtlenecking, helps create a more secure seal without harming the skin. Durahesive® skin barriers are also easy to fit, apply, and remove.

Natura® Stomahesive® Skin Barrier with ConvaTec Moldable Technology™ and Accordion Flange

NATURA®  **ESTEEM SYNERGY®**  **ESTEEM®** 

THE ONLY THING THAT GETS CUT OUT IS THE WORRY.

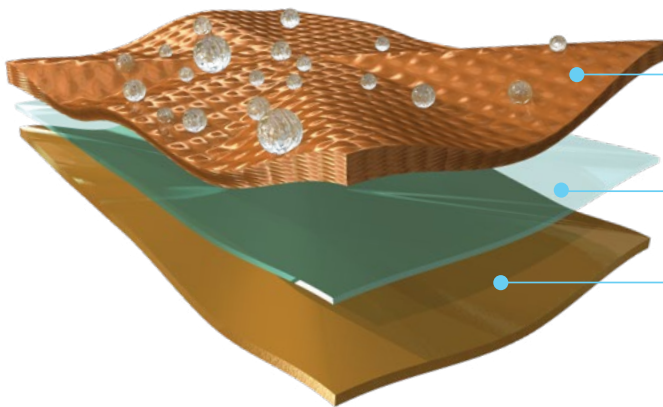

No cutting or guessing means your patients say yes to everything else.

ConvaTec Moldable Technology™ Skin Barrier

ConvaTec's Unique Moldable Technology is made up of Tri-Laminate Protection

1

LEAK-LOCK™

First-of-its kind system provides a snug "turtleneck" effect for maximum leakage control and added security.

2

PATENTED REBOUNDED MEMORY TECHNOLOGY™

Customizable so that it molds to the stoma for a perfect fit every time.

3

STAYS ON

Barriers are reinforced with our acclaimed adhesives, to keep them secure and give your patients peace of mind.

Our moldable barriers act as a shield for the skin. In a clinical study they are proven to prevent and improve complications of the skin around the stoma.*

Natura® + Pouches

(compatible with Natura® skin barriers)

ConvaTec developed these innovative pouches to be noticeably more comfortable and more discreet. The Natura®+ pouching system offers the latest technologies from ConvaTec including:

- Filter with anti-clogging film layer
- Soft and quiet materials
- InvisiClose® tail closure
- Lock-it Pocket™ that securely hides away the tail giving the comfort of a closed-end pouch

These pouches combined with ConvaTec advanced skin barrier adhesives offer security, comfort and discretion.

STOMA SIZE	COLOR MATCH	SKIN BARRIER
Up to 35 mm (1 3/8")	●	Small
Up to 48 mm (1 7/8")	●	Medium
Up to 61 mm (2 3/8")	●	Large
Up to 89 mm (3 1/2")	●	Extra-Large

Esteem synergy® Two-Piece Ostomy Systems

The Esteem synergy® ostomy system utilizes an innovative Adhesive Coupling Technology™ that connects the pouch to the skin barrier and eliminates the need for plastic rings that must be snapped or locked together. Esteem synergy® ostomy system is ConvaTec's innovative product that provides the skin friendliness and versatility of a two-piece system, as well as the low profile, comfort, and flexibility of a conventional one-piece system.

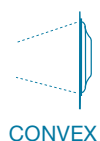

The Esteem synergy® ostomy system has a flat, flexible adhesive foam ring on the pouch that securely adheres to a clear, flat, flexible plastic "Landing Zone" flange on the skin barrier.

Esteem synergy® Skin Barriers

(compatible with Esteem synergy®+ and Esteem synergy® pouches)

The landing zone flange on the skin barrier is square and is slightly larger in size compared to the round adhesive ring on the pouch.

One-piece and two-piece solutions with convexity

Are your patients
concerned about leakage?

Consider a ConvaTec Convex solution.

Our convexity solutions are curved to fit a variety of body types and designed to help maintain a good seal around the stoma.

To find out more, visit convatec.ca/ostomy

Esteem®+ One-Piece Ostomy System

Flexible and discreet, the Esteem®+ one-piece system is the all-in-one solution that combines the skin barrier and pouch in a single unit. Available in multiple adhesive technologies that gently adhere to skin and protect skin from breakdown.

The Esteem®+ one piece pouching system includes:

- Filter with an anti-clogging film layer
- InvisiClose® clipless tail closure with a strong hook-on-hook fastener
- The Lock-It Pocket™ which securely hides away the tail of the drainable pouch to provide the comfort of a closed end pouch
- Comfort panel pouch material that is soft and smooth against the skin

ESTEEM® Flex Convex

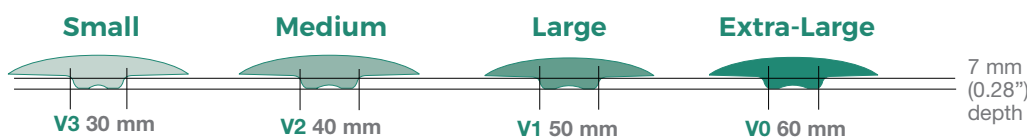

The Esteem®+ *Flex* Convex is a one-piece system that fits the contours of the body, moving with you to give you the confidence to live life the way you want.

Key benefits include:

- **Moves with you** – flexible convexity fits to body contours for comfort and easy positioning.
- **Skin health and security** – hydrocolloid skin barrier is designed to stay firmly in place, helping to minimize leakage.
- **Comfort and discretion** – with soft and quiet fabric, designed to allow for a secure and comfortable experience.

Four Plateau Sizes

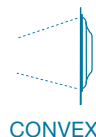

The Esteem®+ Flex Convex system is available in 4 plateau sizes to accommodate a range of stomas.

Esteem®+ Flex Convex Drainable Pouch with Cut-to-Fit Hydrocolloid Skin Barrier, Safe Seal Clipless Closure and Filter

Opaque with 2-sided comfort panel with window and no tape collar*

Each box contains 2 night drainage adapters.

*Includes belt tabs

ESTEEM® Soft Convex

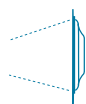

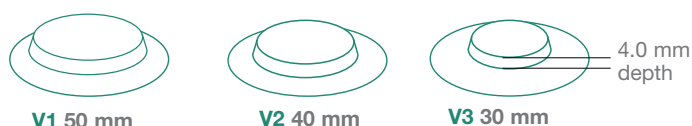

The flexibility of Esteem®+ Soft Convex combined with a shallow convexity is designed to be gentle on the skin and deliver comfort and flexibility.

Key benefits include:

- **Peace of mind** – Split fabric, easy-view window for accurate positioning and observation.
- **Trust and reassurance** – The filter helps minimize odours and ballooning.
- **Simple, secure fastening** – The Safe Seal clipless closure helps make cleaning and emptying easy.
- **Support and security** – Integral soft flexible belt loops provide added security.

Three Plateau Sizes

The Esteem®+ Soft Convex system is available in 3 plateau widths to address a range of stoma management issues.

Little Ones® Pediatric Ostomy Systems

A product line designed to
care for the youngest patients.

Little Ones® Pediatric Ostomy System

With all the challenges that go with raising a child, finding the right ostomy product needn't be one of them. That's because ConvaTec has a line of products designed just for kids. The line features products for children who have had colostomy, ileostomy, or urostomy surgery. As with our adult line, ConvaTec Little Ones® Ostomy products offer a full range of products to meet a child's need or parent's preference. Each has been scaled down in size to comfortably fit a child's unique body contour. Little Ones® products are designed with an active child in mind.

Color Key and Sizing Guides

Match the color of the dot on the skin barrier package with the color of the dot on the pouch package.

Little Ones® Two-Piece Standard Closed-End Mini Pouch, no Filter

Opaque with 1-sided comfort panel

Pouch length: 13 cm (5")

Product Code	Pouch ring size	Color Match	Box of
401930	32 mm (1 1/4")		20

Little Ones® Two-Piece Standard Drainable Pouch, no Filter

Transparent with 1-sided comfort panel

Pouch length: 15.2 cm (6")

Product Code	Flange Size	Color Match	Box of
401927	32 mm (1 1/4")		10
401928	45 mm (1 3/4")		10

10 soft, moldable tail closures per box—designed for pediatric use.

Natura® Flexible Skin Barrier **125259** 45 mm (1 3/4") can be used with Little Ones® pouch **401928**.

Little Ones® Two-Piece Standard Urostomy Pouch

Transparent with 1-sided comfort panel

Pouch length: 13 cm (5")

Product Code	Flange Size	Color Match	Box of
401929	32 mm (1 1/4")		10

Each box contains two night drainage adapters.

Eakin® Fistula and Wound Pouches

A variety of products that provide complete and consistent wound and skin management.

Wound Pouches

Eakin® wound pouches can help contain a fistula, handle an exuding wound and help protect vulnerable skin. They come in a variety of shapes and sizes to provide complete and consistent wound and skin management.

Small Eakin® Wound Pouch with Fold and Tuck Closure
 Suitable for cutting area of 45 mm x 30 mm (1.8" x 1.2")

Product Code	Size	Box of
839250	45 mm x 30 mm (1.8" x 1.2")	10

Medium Eakin® Wound Pouch with Fold and Tuck Closure
 Suitable for cutting area of 110 mm x 75 mm (4.3" x 3")

Product Code	Size	Box of
839251	110 mm x 75 mm (4.3" x 3")	10

Large Eakin® Wound Pouch with Fold and Tuck Closure
 Suitable for cutting area of 175 mm x 110 mm (6.9" x 4.3")

Product Code	Size	Box of
839252	175 mm x 110 mm (6.9" x 4.3")	10

Small Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure
 Suitable for cutting area of 45 mm x 30 mm (1.8" x 1.2")

Product Code	Size	Box of
839260	45 mm x 30 mm (1.8" x 1.2")	10

Medium Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure
 Suitable for cutting area of 110 mm x 75 mm (4.3" x 3")

Product Code	Size	Box of
839261	110 mm x 75 mm (4.3" x 3")	10

Large Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure

Suitable for cutting area of 175 mm x 110 mm (6.9" x 4.3")

Product Code	Size	Box of
839262	175 mm x 110 mm (6.9" x 4.3")	10

Extra Large Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure

Suitable for horizontal cutting area of 245 mm x 160 mm (9.7" x 6.3")

Product Code	Size	Box of
839263	245 mm x 160 mm (9.7" x 6.3")	5

Extra Large Eakin® Wound Pouch with Tap Closure and Access Window

Suitable for easy access to horizontal cutting area of 245 mm x 160 mm (9.7" x 6.3")

Product Code	Size	Box of
839264	245 mm x 160 mm (9.7" x 6.3")	5

Extra Large Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure

Suitable for vertical cutting area of 160 mm x 245 mm (6.3" x 9.7")

Product Code	Size	Box of
839265	160 mm x 245 mm (6.3" x 9.7")	5

Extra Large Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure

Suitable for vertical cutting area of 130 mm x 290 mm (5.1" x 11.4")

Product Code	Size	Box of
839266	130 mm x 290 mm (5.1" x 11.4")	5

Small Plus Eakin® Wound Pouch with Remote Drainage Attachment and Tap Closure

Suitable for cutting area of 60 mm x 86 mm (2.4" x 3.4")

Product Code	Size	Box of
839267	60 mm x 86 mm (2.4" x 3.4")	10

Extra Large Eakin® Wound Pouch with Tap Closure and Access Window

Suitable for vertical cutting area of 160 mm x 245 mm (6.3" x 9.7")

Product Code	Size	Box of
839268	160 mm x 245 mm (6.3" x 9.7")	5

Eakin® Access Window

Add to Eakin® wound and fistula pouches to allow instant access to the wound (may be used with 839252, 839262, 839263, 839265, 839266)

Product Code	Size	Box of
839280	n/a	5

Cohesive[®]
seal

Protecting
your patients
24/7
EVERY DAY

**eakin Cohesive[®] seals work hard
for your patients every day. Just like you.**

eakin **Cohesive[®]** seals work hard to:

- Protect skin
- Prevent leaks
- Absorb up to **4x more** than others¹

Continence & Critical Care

Flexi-Seal® Fecal Management System (FMS)

Flexi-Seal® PROTECT PLUS with LUER or ENFit™ connection

A fecal management system that senses when the retention balloon is correctly filled and visually indicates over-inflation

- Medication/irrigation port with LUER or ENFit™ connection, allowing to deliver medication effectively via a secondary route
- Self-closing catheter designed to reduce the risk of cross-contamination during bag change
- Blue finger pocket allows easy and accurate placement of the soft silicone retention balloon
- Proven *in vitro* to contain C. difficile and its spread into the environment³¹
- Odor barrier runs the full length of the catheter, providing an end-to-end odor barrier³²
- The blue sampling port allows safe and easy stool collection helping minimize the risk of fecal exposure
- Contains Protect Plus Privacy™ Collection Bag with APS filter with 6x more odor-capturing capabilities compared to the charcoal filtered collection bags³³. This filter also eliminates the need of manually releasing the excess gas from the collection bag³⁴. Includes 4 ConvaTec Diamonds™ gelling and odor control sachets

Product Code	Box of
422303	1 kit with LUER connection with one filtered bag
421703	1 kit with ENFit™ connection with one filtered bag
422291	Protect Plus Privacy™ Collection Bag with APS filter (5/box)

Flexi-Seal® PROTECT FMS

A fecal management system that senses when the retention balloon is correctly filled and visually indicates over-inflation

- Blue finger pocket allows easy and accurate placement of the soft silicone retention balloon
- Proven *in vitro* to contain C. difficile and its spread into the environment³¹
- Odor barrier runs the full length of the catheter, providing an end-to-end odor barrier³²
- The blue sampling port allows safe and easy stool collection helping minimize the risk of fecal exposure
- Contains Privacy™ Collection Bag with APS filter with 6x more odor-capturing capabilities compared to the charcoal filtered collection bags³³. This filter also eliminates the need of manually releasing the excess gas from the collection bag³⁴

Product Code	Box of
421630	1 kit with one filtered bag

Flexi-Seal® SIGNAL™ FMS

- Proven *in vitro* to contain the spread of C. difficile and prevent C. difficile from spreading into the environment³¹
- The SIGNAL™ indicator is designed to prevent overfilling of the retention balloon
- Excess gas released through the collection bag filter minimizes the need for frequent bag changes, potentially reducing the aerosolized spread of C. difficile spores^{34,35}
- The filter also reduces or eliminates the need of manually releasing the excess gas from the collection bag³⁴
- Odor barrier runs the length of the catheter, providing an end-to-end odor barrier³²

Product Code	Box of
418000	1 kit with 3 filtered bags

Flexi-Seal® FMS

Product Code	Description	Box of
411102	Disposable Replacement Collection Bags with Filters, 1000 ml capacity	10 bags
411108	Disposable Replacement Privacy™ Collection Bags with APS Filter, 1000 ml capacity	10 bags

Feel the difference!

GentleCath™ is designed to make catheter insertion and removal as smooth and easy as possible for the patient.

- Polished and rounded eyelets minimise friction.
- Soft, rounded tip aids smooth insertion.
- Available in male and female straight tip and male coudé tip, for insertion through complicated passages.

- Color coded connector for easy FR size identification.
- Available in a wide range of sizes to meet your patients' needs.
- Fits drainage bags or other devices.

See the difference!

GentleCath™ Glide Intermittent Urinary Hydrophilic Catheter

GentleCath™ Glide is designed to make cathing as simple and convenient as possible.

Smooth, slippery surface

Feature: a low friction hydrophilic catheter. The smooth, slippery surface is designed to make cathing easier.

Residuals reduction

Feature: FeelClean™ technology

The catheter is made with our unique technology designed to reduce the residuals and mess left behind by cathing, so users can worry less about getting residue on their clothes, hands and body.

Catheter contamination prevention

Feature: a no-touch sleeve

GentleCath™ Glide has a no-touch handling sleeve to help prevent contamination of the catheter with bacteria from the hands.^{1,2}

Speed and discretion

Feature: quick lubrication

GentleCath™ Glide is ready to use with no unnecessary delay. Users can start cathing as soon as they break the water sachet and wet the length of the catheter – so it can be used quickly and discreetly.

Not made with DEHP

The GentleCath™ Glide catheter is made without the use of DEHP.*

*DEHP (di(2-ethylhexyl)phthalate) is used to soften PVC plastic and is suspected to reduce fertility.

Wound Management

Use of Compression with Venous Leg Ulcers

Role of Compression Therapy in Venous Ulcer Management

Normally, blood flows upwards to the heart from the superficial veins to the deep veins via the perforator veins. Blood backflow is prevented by valves in the veins and the calf muscle pump. Damage to the veins will result in loss of function in or destruction of the valves, and subsequent disruption of the calf muscle function. As a result, venous pressure is raised (venous hypertension). This can ultimately result in ulcer formation.³ Inadequate management of venous hypertension has also been linked to the high venous ulcer recurrence rate.³ With compression therapy, constant compression (supplied by external devices) is applied to improve the return of blood upward toward the heart and help decrease fluid leakage from the veins.³ There are many types of compression products available today including compression bandages, compression stockings, Unna's Boot, pneumatic compression pumps and orthotic devices.

Compression Products

SurePress® High Compression Bandage*

Elastic wrap that is designed to provide sustained graduated compression in an easy to use format

- Reusable with a yellow center line and two rectangular extension indicators. Designed for easy application and providing the appropriate amount of compression for a variety of leg sizes
- Maintains consistent tension for up to 20 washings

Product Code	Size	Box of
650947	10 cm x 3 m (4" x 3.2 yards) unstretched	1

SurePress® Absorbent Padding*

Used underneath SurePress® high compression bandage to support the distribution of graduated compression and to protect bony prominences

- Apply the SurePress® absorbent padding over the primary wound dressing
- Compression of any kind should not be used for the management of arterial and mixed venous/arterial ulcers

Product Code	Size	Box of
650948	10 cm x 3 m (4" x 3.2 yards)	6

*See package insert for complete Instructions for Use.

Wound Management

Wound Hydration

DuoDERM® Hydroactive® Gel*

- Designed for the hydration and management of partial and full-thickness wounds such as leg ulcers and pressure ulcers.
- Creates a moist healing environment, which helps to promote the natural autolytic processes of debridement.

Product Code	Size	Box of
187987	30 g	3
187990	15 g	10

Specialty Primary Dressings

CarboFlex® Odor Control Dressings, Sterile*

- Multi-layered sterile dressing for malodorous wounds⁵
- Creates a gel in the presence of wound exudate
- Provides odor control and absorbency⁵ in *in vitro* testing in one easy-to-use, non-adhesive dressing

Application tip: place the cream-colored fibrous side on the wound bed. The white surface (which features a water-resistant film) should be facing away from the wound

Product Code	Size	Shape	Box of
403202	10 cm x 10 cm (4" x 4")	Square	10
403203	7.5 cm x 15 cm (3" x 6")	Rectangle	5
403204	15 cm x 20 cm (6" x 8")	Rectangle	5

*See package insert for complete Instructions for Use.

Moisture-Retentive Dressings

Hydrofiber® Technology Dressings

AQUACEL® Foam Hydrofiber® Dressing, Sterile*

Only AQUACEL® Foam Hydrofiber® dressing offers comfort and simplicity, plus the healing benefits of an AQUACEL® interface.

- Waterproof/Bacteria Barrier provides
 - Evaporation of excess moisture
 - A waterproof barrier against viral/bacterial penetration^{6,a}
- Soft absorbent foam pad enhances patient comfort and absorbs wound exudate
- AQUACEL® interface gels on contact with wound exudate to maintain a moist environment
- Gentle silicone adhesive designed to adhere to surrounding skin, not the wound bed

AQUACEL® Ag Foam Hydrofiber® Dressing, Sterile*

The only silver foam dressing that offers the benefits of an AQUACEL® Ag interface, the comfort of foam and the bacteria-killing power of ionic silver.^{7,†} AQUACEL® Ag Foam Hydrofiber® dressing is the easy choice

- Waterproof Barrier provides
 - Controlled moisture vapor transmission
 - Protection against viral/bacterial penetration^{6,†}
- Soft foam pad absorbs fluid
- Silicone adhesive border provides secure skin-friendly adhesion

AQUACEL® Foam PRO Dressing, Sterile**

AQUACEL® Foam Pro dressing is designed to protect the skin from breakdown caused by moisture, friction and shear forces when used as part of a protocol of care.^{†,*}

- Smooth, breathable, waterproof film helps minimize shear and friction^{*,†}, e.g., between bed linens and dressing
- Multilayered silicone foam powered by Hydrofiber® Technology helps provide a healthy skin microclimate by absorbing and locking away excess moisture from the skin^{*,†}
- Perforated gentle silicone adhesive layer allows easy application and removal^{*}
- Adhesive does not stick to itself^{*}

Product Code	Size	Shape	Box of
421579	20 cm x 17.5 cm (8" x 7")	Sacral	5
421580	24 cm x 21 cm (9.5" x 8.5")	Sacral	5
422356	19.8 cm x 14 cm (8" x 5.5")	Rectangle (Heel)	10
422357	10 cm x 10 cm (4" x 4")	Square	10
422358	15 cm x 15 cm (6" x 6")	Square	10
422359	8 cm x 8 cm (3.2" x 3.2")	Square	10

*As demonstrated *in vitro*.

†When used as part of a protocol of care.

**See package insert for complete Instructions for Use.

FoamLite™ ConvaTec Moisture-Retentive Dressings

FoamLite™ ConvaTec Dressing, Sterile*

Designed specifically for the management of low to non-exuding chronic and acute wounds. FoamLite™ ConvaTec dressing is a thin foam dressing with a breathable film and perforated, gentle, skin friendly silicone adhesive.^{†1} FoamLite™ ConvaTec dressing is flexible and conforms^{†1} to the body.

- Soft-to-touch protective barrier against water bacteria and viruses[†]
- Perforated, gentle, skin-friendly silicone adhesive, easy to apply, re-position and atraumatic to the wound and periwound skin upon removal^{†2}
- Thin, flexible, soft foam layer designed to absorb low exudate levels and helping maintain a moist wound healing environment^{†1}

Product Code	Size	Shape	Box of
421557	8 cm x 8 cm (3.1" x 3.1")	Square	10
421559	10 cm x 10 cm (4" x 4")	Square	10

Moisture-Retentive Dressings

Other Moisture-Retentive Dressings

DuoDERM® Extra Thin CGF® (Control Gel Formula) Hydrocolloid Dressing, Sterile*

- Covers and protects susceptible areas—can be used anywhere on the body to gently protect newly formed tissue or skin at risk of breakdown
- Supports moist wound healing³⁷
- Translucent backing is designed to prevent needless dressing changes that cause discomfort and disturb healing
- Thin design is flexible and conformable
- Moisture-resistant for ease of cleaning/showering
- May be used on skin tears, superficial wounds, dry-to-lightly exuding dermal ulcers and post-op wounds*

Product Code	Size	Shape	Box of
187900	5 cm x 10 cm (2" x 4")	Rectangle	20
187901	7 cm x 7 cm (3" x 3")	Square	20

187957	14 cm x 14 (6" x 6")	Square	10
187961	5 cm x 20 cm (2" x 8")	Rectangle	10
187932	4.4 cm x 3.8 cm (1.75" x 1.5")	Spots	20

DuoDERM Signal® CGF® (Control Gel Formula) Hydrocolloid Dressing, Sterile*

- Easy-to-use visual indicator signals when it's time to change the dressing – May help simplify dressing changes
- Tapered border edges—designed to reduce the potential for dressing edges to catch on bed linen and clothing and to enhance patient comfort
- Smooth, low-friction backing—designed to reduce shear that can cause dressing to prematurely dislodge
- Thin profile—makes the dressing flexible and conformable
- Translucent—enhances placement and initial monitoring of the wound
- For wounds with low-to-moderate exudate

Product Code	Size	Shape	Box of

25 YEARS OF
AQUACEL®

With
you when

... you had the confidence her wound was healing

25 years ago, we created AQUACEL® dressings, with our groundbreaking Hydrofiber® Technology.

Every year since, we have strived to keep innovating and have been **with you** in over 90 countries around the world supporting the healing journey of over 100 million patients.¹

Above all, we are proud to be **with you**.

Wound Management

Exudate Management Dressings

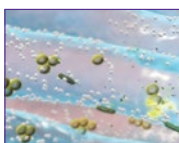

Hydrofiber® Technology

- Locks in wound exudate¹¹ and traps bacteria^{8-9,†}
- Helps protect periwound skin and reduce maceration¹⁰⁻¹¹
- May help minimize cross-infection and risk of wound infection during removal^{9,12}

- Micro-contours to the wound bed^{13,†}
- Minimizes “dead space” where bacteria can thrive¹³
- Maintains moisture balance in the wound bed¹⁴

- Responds to wound conditions by forming a cohesive gel
- The addition of ionic silver provides rapid and sustained antimicrobial activity^{7, 9, 16,†}
- Minimizes pain associated with dressing changes¹⁷⁻¹⁸

Hydrofiber® Technology Dressings

AQUACEL® EXTRA™ Hydrofiber® Wound Dressing, Sterile*

AQUACEL® EXTRA™ Dressing with Strengthening Fiber is a soft, sterile, non-woven pad dressing composed of Hydrofiber® (sodium carboxymethylcellulose). This conformable and highly absorbent dressing absorbs wound fluid and creates a soft cohesive gel, maintains a moist environment which supports the body's healing process and aids in the removal of necrotic material from the wound (autolytic debridement) without damaging newly formed tissue. AQUACEL® EXTRA™ wound dressing is composed of two layers of Hydrofiber® Technology stitched together, and designed to make it 9X stronger and provides an increased absorbency of 39% higher than the original AQUACEL® wound dressing.

- Composed of two layers of Hydrofiber® Technology stitched together
- Same gelling benefits of the original AQUACEL® dressing, but is 9X stronger¹⁹ and 39% more absorbent¹⁹
- May be used to help manage low to highly exuding wounds
- Supports healing by providing a moist environment
- Soft, nonwoven pad dressing can be used on acute and chronic wounds including: leg ulcers, diabetic foot ulcers, pressure injuries, partial-thickness burns, post-op wounds or traumatic wounds left to heal by secondary intent, abrasions, lacerations and donor sites

Product Code	Size	Shape	Box of
420671	5 cm x 5 cm (approx. 2" x 2")	Square	10
420672	10 cm x 10 cm (approx. 4" x 4")	Square	10
420673	15 cm x 15 cm (approx. 6" x 6")	Square	5

*See package insert for complete Instructions for Use.

AQUACEL® Hydrofiber® Ribbon Dressing with Strengthening Fiber, Sterile*†

Features Hydrofiber® Technology—a unique technology exclusive to ConvaTec

- Soft, nonwoven ribbon dressing can be used on acute and chronic wounds including: leg ulcers, diabetic foot ulcers, pressure injuries, partial-thickness burns, post-op wounds or traumatic wounds left to heal by secondary intent, abrasions, lacerations, and donor sites
- Gelling action is designed to prevent dressing from adhering to wounds

Product Code	Size	Box of
403770	2 cm x 45 cm (approx. 3/4" x 18")	5
420127	1 cm x 45 cm (approx. 0.39" x 18")	5

AQUACEL® Surgical Hydrofiber® Cover Dressing, Sterile*

Evidence supports that, compared to a nonwoven post-operative surgical cover dressing regimen, AQUACEL® Ag SURGICAL cover dressing:

- Reduced the incidence of acute periprosthetic joint infection (PJI) within 3 months after undergoing total joint arthroplasty (TJA) by 76%²²
- Reduced the frequency of skin blisters by 88.5%²³
- Reduced the number of dressing changes by 95%²³
- Scored higher in patient hygiene satisfaction scores²³

Product Code	Size	Shape	Box of
412017	9 cm x 10 cm (approx. 3.5" x 4")	Rectangle	10
412018	9 cm x 15 cm (approx. 3.5" x 6")	Rectangle	10
412019	9 cm x 25 cm (approx. 3.5" x 10")	Rectangle	10
412020	9 cm x 35 cm (approx. 3.5" x 14")	Rectangle	10
420669	9 cm x 30 cm (approx. 3.5" x 12")	Rectangle	10

AQUACEL® Ag Surgical Hydrofiber® Cover Dressing, Sterile*

Product Code	Size	Shape	Box of
412009	9 cm x 10 cm (approx. 3.5" x 4")	Rectangle	10
412010	9 cm x 15 cm (approx. 3.5" x 6")	Rectangle	10
412011	9 cm x 25 cm (approx. 3.5" x 10")	Rectangle	10
412012	9 cm x 35 cm (approx. 3.5" x 14")	Rectangle	10
420670	9 cm x 30 cm (approx. 3.5" x 12")	Rectangle	10

*See package insert for complete Instructions for Use.

† Patients with infected wounds should always be managed with a comprehensive protocol of care to address wound infection.

Other Exudate Management Dressings

KALTOSTAT® Wound Dressings, Sterile*

- Soft, sterile dressing made of calcium-sodium alginate fiber that converts to a firm gel/fiber mat on contact with fluid
- Designed to absorb exudate and to help control minor bleeding
- Can be used in moderately to heavily exuding wounds including: pressure injuries (Stage II-IV), venous ulcers, arterial and diabetic ulcers, donor sites, superficial burn wounds, lacerations and abrasions, traumatic wounds and after surgical wound debridement

Product Code	Size	Shape	Box of
168117	2 g	Rope	5
168210	5 cm x 5 cm (2" x 2")	Square	10
168212	7 cm x 12 cm (3" x 5")	Rectangle	10
168214	10 cm x 19 cm (4" x 8")	Rectangle	10

Exudate & Biofilm Management Dressings

AQUACEL® Ag+ Extra™ Hydrofiber®, Sterile*

AQUACEL® Ag+ EXTRA™ offers all the benefits of AQUACEL® EXTRA™ dressings incorporating proven Hydrofiber® Technology with a unique ionic silver-containing an antibiofilm formulation to manage the 3 key local barriers to healing – exudate, infection and biofilm

- Provides rapid¹⁴ and sustained antimicrobial activity¹⁵⁻¹⁶
- May be used to help manage low to highly exuding wounds to disrupt and absorb biofilm, prevent biofilm formation/reformation and increase the efficiency of silver transfer to microorganisms
- Composed of two layers of Hydrofiber® Technology stitched together
- Same gelling benefits of the original AQUACEL® Ag dressing, but is 9X stronger²⁰ and 50% more absorbent²¹
- Is a soft, sterile, microbicidal pad dressing that can be used on open wounds at risk of infection (as part of a comprehensive protocol of care) including: leg ulcers, diabetic foot ulcers, pressure injuries, partial-thickness burns, post-op wounds, and oncology wounds with exudate (e.g., Kaposi's sarcoma and angiosarcoma)
- Can be used on surgical incisions, traumatic wounds, abrasions and lacerations
- Can be used on wounds where bacteria are a suspected cause of (or a factor in) chronicity/non-progression

Product Code	Size	Shape	Box of
413566	5 cm x 5 cm (2" x 2")	Square	10
413567	10 cm x 10 cm (4" x 4")	Square	10
413568	15 cm x 15 cm (6" x 6")	Square	5
413569	20 cm x 30 cm (8" x 12")	Rectangle	5

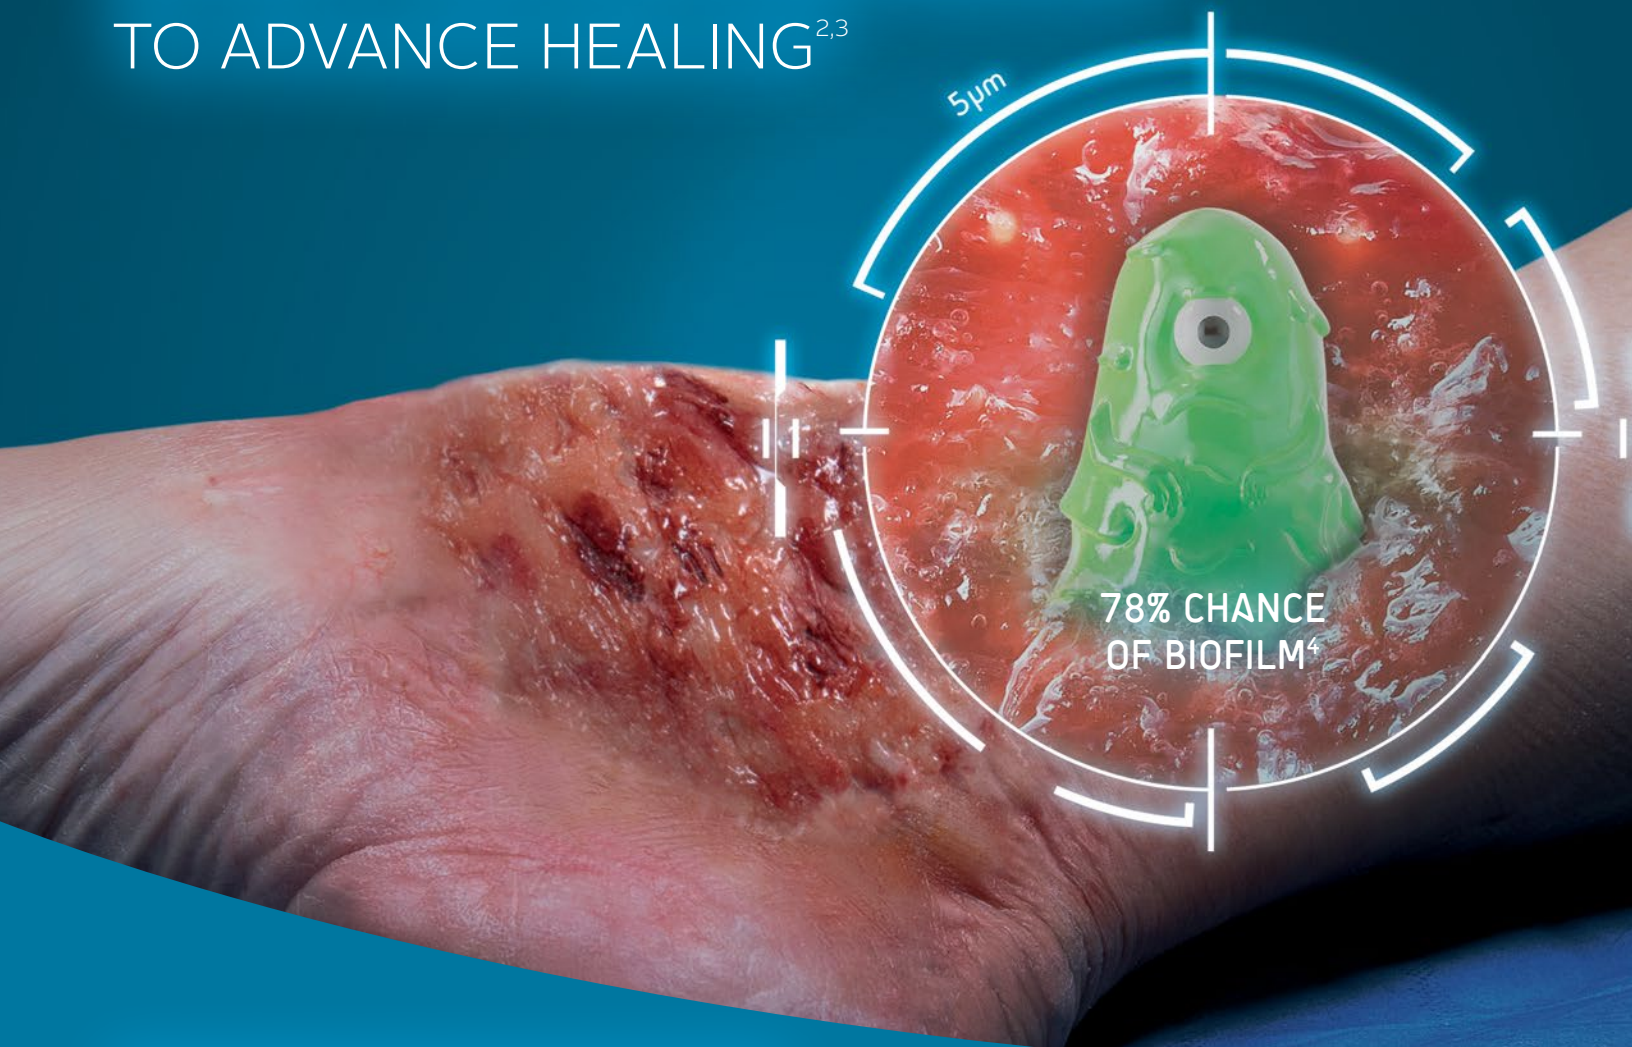

AQUACEL® Ag+ Hydrofiber® Ribbon Dressing, Sterile*

Product Code	Size	Box of
413570	1 cm x 45 cm (approx. 0.39" x 18")	5
413571	2 cm x 45 cm (approx. 3/4" x 18")	5

*See package insert for complete Instructions for Use.

† As demonstrated *in vitro*

YOU HAVE THE POWER TO **DISRUPT AND DESTROY BIOFILM**¹ TO ADVANCE HEALING^{2,3}

NON-HEALING WOUNDS NEED **MORE THAN SILVER™**

Specifically developed to win the battle against biofilm, **MORE THAN SILVER™** technology harnesses the synergistic power of three key components; ionic silver, a surfactant and a metal chelating agent working together to deliver superior¹ performance.*

Negative Pressure Wound Therapy

Negative Pressure Wound Therapy

Avelle™ Negative Pressure Wound Therapy System

The first system to combine negative pressure wound therapy with Hydrofiber® Technology. Negative Pressure Wound Therapy delivered in a simple, discreet, canister-less system: Easy to use - Small and portable - Quiet, no alarm - Disposable pump with 30 day lifetime† - Designed for flexibility - Suitable for use within and across different care settings - Separate pump and dressing packs - Supports patients resuming normal life.

Feature description of Hydrofiber® dressing:

1. Gentle silicone adhesive border^{39*} secures the dressing in place.
2. Stitch-bonded Hydrofiber® wound contact layer gels on contact with wound fluid and is designed to maintain dressing integrity on removal.^{39*}
3. Hydrofiber® core gels on contact with wound fluid locking in exudate and the bacteria it contains.^{26,27,39*} Channels in the Hydrofiber® core are designed to allow fluid to move throughout the dressing ensuring exudate is locked away.^{39*}
4. Foam layer is designed to aid distribution of negative pressure across the dressing.^{39*}
5. Film layer provides a bacterial and viral barrier, is showerproof, and permits evaporation of exudate aiding overall fluid handling.^{39*}

OSTOMY GLOSSARY OF TERMS

Adhesive Coupling Technology™ (ACT) — a two-piece ostomy pouching system that attaches with a tape-like adhesive rather than plastic rings snapping together.

Closed-end pouch — A pouch that has no opening at the bottom and is removed and thrown away after each use. This makes them ideal for special occasions, intimate moments, or for everyday use. Some are offered with a filter designed to reduce odor and gas buildup.

Comfort panels — A fine covering on one or both sides of the pouches, feels comfortable on the skin.

Convexity — The outward curving of a faceplate which begins at the aperture of the faceplate and extends outward.¹

Cut-to-Fit — The opening of the skin barrier or appliance needs to be enlarged (using scissors) to match the stoma size.

Drainable pouch — Has an opening at the bottom which allows stool or urine to be drained and re-closed with a clip or self gripping fastener hook tape, thus can be re-used. Urostomy pouches are drained by the valve or tap.

Durahesive® — is an extended wear barrier that provides the ultimate in security and adhesion for people with liquid to semi-liquid outputs.

Durahesive Plus® — is an extended wear barrier available in a one-piece cut-to-fit pouch.

Film — all ConvaTec pouches have built in layers that help reduce the rustling noise under clothing, and a built in odor-barrier.

Filter — some ConvaTec pouches have an integral filter that helps reduce gas buildup within the pouch.

InvisiClose® tail closure — A clipless pouch that is closed via an integrated interlocking system.

Flange — The plastic connector ring on the ostomy skin barrier or pouch.

Moldable — No scissors are needed to size a moldable skin barrier. The adhesive can be molded or shaped to the size of the stoma using one's fingers.

One-piece ostomy pouching system — The skin barrier and pouch are combined into one unit for a one-step application. It is flexible and offers a low profile. The pouch cannot be removed without removing the skin barrier/wafer.

Peristomal skin — the skin surrounding a stoma.

Pre-cut — The opening of the skin barrier or appliance is already cut to match the stoma size (No need of scissors).

Skin barrier/wafer — round or square-shaped with a sticky side that is applied to the skin around the stoma (called peristomal skin). Helps protect the skin from stool or urine, which can be very irritating.

Skin protective barrier — A wipe or spray that forms a protective film on skin to help prevent skin breakdown by shielding it from irritating or caustic substances.

Stomahesive® — is a skin barrier that provides excellent security for people with semi-formed to formed output because of its special formulation that enables it to adhere to both dry and wet skin.

Tape collar — ConvaTec skin barriers are available with or without tape collars. Most skin barriers with tape collars are available in white, dye-free tape or tan tape.

Two-piece ostomy pouching system — skin barrier/wafer and pouch are separate and attached together with a round, plastic ring (called a flange). Pouch can be easily removed without also having to remove the skin barrier/wafer.

¹ Rolstad BS, Boarini J. Principles and techniques in the use of convexity. Ostomy/Wound Management; January/February 1996; (42)1: 26.

WOUND CARE GLOSSARY OF TERMS

Bactericidal — Bacteria will be killed and therefore growth will not restart when contact with the antimicrobial agent is stopped.

Bacteriostatic — Bacterial growth will be inhibited, but will start again when contact with the antimicrobial agent is stopped.

Biofilm — Biofilm describes surface-adherent bacteria, encased in and protected by an extracellular polymeric substance (EPS) composed of polysaccharides, DNA and proteins.

Contamination — Soiling by contact or introduction of organisms into a wound.¹

Hydrocolloid — A substance that yields a gel with water.²

Hydrofiber® Technology — The Hydrofiber® Technology is exclusive to ConvaTec. It is composed of 100% pure sodium carboxymethylcellulose. It is the underlying technology behind AQUACEL®.

Infection — An overgrowth of microorganisms capable of tissue invasion and destruction. Local and systemic symptoms¹ may be observed.

Microbicidal — Bacteria, yeasts and fungi will be killed and therefore growth will not restart when contact with the antimicrobial agent is stopped.

Partial-thickness burn — (Second degree): A burn that damages the epidermal and some dermal tissues but does not damage the lower-lying hair follicles, sweat or sebaceous glands.³

Explanation of ConvaTec Package Code Numbering System

LOT NUMBERS

Every ConvaTec product carries a lot number that serves to indicate when the item was produced, and from which a complete history as well as expiration date of the product can be derived.

Most products use the following format:

Example - Lot number **9J00978**

9 = Year (2019)

J = Month (September)

00978 = Lot number assignment for positive identification of each lot produced

Expiration Designation:

- If an expiration date is noted on the box, it will appear below the lot number.
- If an expiration date is not noted on the box, it can be derived by adding five years to date of manufacture of product. See above for details on manufacture dates.
Example: If date of manufacture is determined as September 2009 (ex. 9J), the product's shelf life will be until September 2014; however, limit to return the product is six months prior to this date which would be: March 1, 2014 .

A - January	B - February	C - March	D - April
E - May	F - June	G - July	H - August
J - September	K - October	L - November	M - December

Please contact your ConvaTec Territory Manager or the ConvaTec Customer Relations Center at 1-800-465-6302 for clarification of control numbers or expiration dates.
