CHOOSING WHAT'S RIGHT FOR YOUR PATIENT

The following pages detail the many types of products that are available. Different products may be more appropriate at different stages or events in your patient's life.

Whether it is for a colostomy, ileostomy or urostomy, each ConvaTec stoma system is designed with your patient's /person's lifestyle in mind. The systems are made so that they are discreet even under leisure or sport clothing. They are secure and comfortable to the body and are designed to protect peristomal skin. They can be changed to fit in with the activity of the moment and are easy to use.

Look out for these symbols and abbreviations:

Suitable for an Ileostomy

Suitable for a Colostomy

Suitable for a Urostomy

ConvaTec Mouldable Technology™

PLEASE NOTE Do not cut the baseplates

Coupling size

This is the size of the attachment which connects our pouches to our baseplates. This makes it easy to identify pouches to the corresponding baseplate.

They are also colour co-ordinated as displayed on this table below.

Our baseplates are either cut-to-fit (CTF), pre-cut or ConvaTec Mouldable Technology™. This will be illustrated in this baseplate table.

Esteem *synergy*®+ Drainable Pouches with Lock-it Pocket™ Closure 10 units			
Coupling	Opaque	Clear	Clear
	Standard	Standard	Standard
35mm	416796 ⚥	416795 ⚥	416797
48mm	416799 ⚥	416798 ⚥	416900
61mm	416902 ⚥	416901 ⚥	416903

The combination that you choose is based on your patient's needs and personal preference.

OUR ADHESIVES

Stomahesive®

Stomahesive® technology is a hydrocolloid adhesive that gently adheres to the skin, protecting it from the damaging effects of stoma effluent. Stomahesive® technology combines adhesive and hydrocolloid components for optimal performance under various conditions. Stomahesive® technology is a unique product, only from ConvaTec.

Durahesive®

Durahesive® skin baseplates are designed for people whose stoma output is mostly liquid. Unlike some other skin baseplates that can break down around liquid output, Durahesive® skin baseplates swell up to protect the stoma. This special effect, called turtlenecking, helps create a more secure seal without harming the skin. Durahesive® skin baseplates are also easy to fit, apply, and remove. They will adhere securely to the skin while showering, bathing and swimming.

ConvaTec Mouldable Technology™

Over 95% of new ostomates who started on ConvaTec Mouldable Technology™ maintained healthy skin[1]. Our mouldable baseplates and pouches are designed to gently mould to any stoma shape or size for clinically proven skin protection[1].

This combination helps people feel in control and gives them the freedom to get on with the other important things in life.

- Secure - The elastic-like seal securely hugs any stoma. Designed to minimise leaks for healthier skin[1].
- Simple - Just roll, mould and hold to accommodate any stoma shape and size. No cutting, no stretching, no guesswork.
- Comfortable - Thin and flexible, designed to move with the body.

ONE PIECE

ONE PIECE

Esteem®⊕

Esteem®+ system is our one-piece solution, combining the baseplate and pouch in a single unit. Easy and convenient, it's one simple step to attach or remove and provides a fresh start every time. Our Esteem®+ drainable pouches feature an advanced InvisiClose™ secure closure and Lock-it Pocket™ for added comfort. The Esteem®+ range also benefits from our skin friendly modified Stomahesive® Technology with a touch of mineral oil in every baseplate.

We designed Esteem®+ one-piece with a range of benefits that provide security, confidence and freedom every day. It's available with closed and drainable pouches with a choice of pre-cut, cut-to-fit and mouldable. Our opaque Esteem®+ pouches also feature a split window cover.

MOULDABLE RANGE

ESTEEM®⊕
The convenience of a one-piece with the security and clinically proven[1] skin protection of our Mouldable skin barriers.

ESTEEM SYNERGY®
Our Mouldable Esteem *synergy*® baseplates combined with our Esteem *synergy*® pouches are simple to use, helping people to feel in control of their stoma so they can get on with the important things in life.

NATURA® ACCORDION
The Natura® skin barrier with Accordion Baseplate takes the pressure off of pouch application for improved coupling and comfort. Designed for tender abdomens or for anyone who wants everyday comfort, the Accordion Baseplate lifts easily to provide full finger width space so the pouch can be attached with minimal pressure.

NATURA®
Mouldable barriers combined with our Natura® pouches are simple to use, helping people to feel in control of their stoma so they can get on with the important things in life.
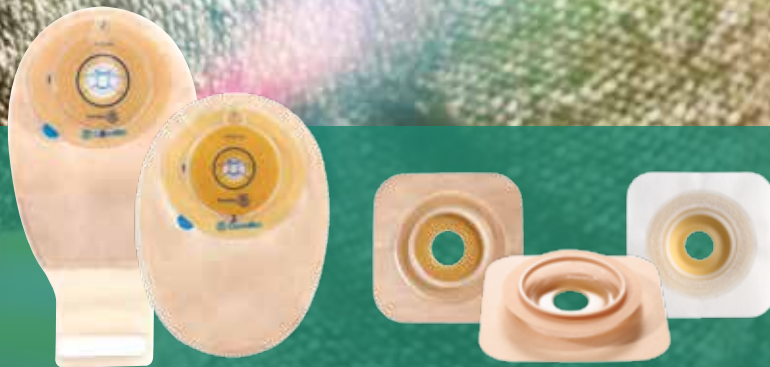

References 1. Clinical Summary: Osmose Study. Multinational Evaluation of the Peristomal Condition in New Ostomates Using Mouldable Skin Barriers. Data on file.

Remove mouldable disc from pouch and warm in hands.

Remove liner marked **#1**. This is the moulding side.

Roll and mould the disc to the size of the stoma. **Do not stretch, pull or cut.** Pinch into place once desired size is reached.

Remove liner marked **#2**. This side will go on the skin.

Place the disk on the body. Push the roll of adhesive toward the stoma to ensure a close fit. Skin should be clean and dry.

Remove liner marked **#3**.

Remove pouch release liner.

Place pouch on the mouldable disc.

TWO PIECE

TWO PIECE

Esteem *synergy* ®

Esteem *synergy* ® system is a two-piece stoma system with adhesive coupling technology for comfort, flexibility and discretion. Designed with security and confidence in mind, Esteem *synergy* ® offers a choice of innovative features as well as our strong and skin-friendly adhesives. Our Esteem *synergy* ® baseplates and Esteem *synergy* ® pouches join securely together via a soft, foam adhesive ring on the pouch which attaches to a 'landing zone' on the baseplate. Flexible and convenient, it's perfect for frequent changing and ideal for people on the go. It has a low-profile that moves with the body so it's comfortable and discreet. Our Esteem *synergy* ® drainable pouches feature our advanced InvisiClose™ Tail Closure and hide-away Lock-it Pocket™.

Esteem *synergy* ® baseplates are available in cut-to-fit, pre-cut and mouldable. Esteem *synergy* ® pouches are available in a range of closed, drainable and urostomy.

Natura®

Natura® system is a two-piece stoma solution, with a separate baseplate and pouch, great for busy, active lives. Designed with security and confidence in mind, the Natura® system is our latest two piece system, offering a choice of innovative features as well as our strong and skin friendly adhesives. With Natura® system, the pouch can be changed whilst the baseplate stays firmly in place. Its snap-lock fastening audibly clicks so you know that it's securely attached. Whether it's playing with the kids, gardening, dinner with friends or running, Natura® pouches offer convenience and security for people with busy lives.

Natura® baseplates are available in cut-to-fit, pre-cut and mouldable. Natura® pouches are available in a range of closed, drainable and urostomy.

The Natura® Accordion baseplate takes the pressure off the pouch application for improved coupling and comfort. Designed for tender abdomens or for anyone who wants everyday comfort, the Accordion Baseplate lifts easily to provide full finger width space so the pouch can be attached with minimal pressure. Once applied the baseplate gives a discreet, low profile that is flexible and conforms to body contours.
